Under the Shareholders' Agreement, the Group will acquire a 20% equity stake in the project company that is developing the mixed development project. MCC Land and Ekovest will take a 51% and 29% equity stake respectively.

In November 2020, MCC Land won the site tender at Tanah Merah Kechil Link with its bid of S\$248.99 million after a government tender that drew 15 bids from various developers.

Slated for residential with commercial use on the first storey, the 99-year lease land parcel has an area of 8,880 square metres and can potentially yield 265 condo units and 2,000 square metres of commercial space.

Recently, The Place Holdings and MCC Land established a strategic framework agreement to build a long term and mutually beneficial relationship in relation to potential and upcoming construction and development of residential and commercial property projects, projects management, as well as development and management of cultural tourism projects.

Under the leadership of Executive Chairman, Mr Ji Zenghe (吉增和) and Chief Executive Officer, Mr Fan Xianyong (樊献勇) and combined with their deep property development experience and long-standing business track record, The Place Holdings has transformed its business model to 3 core business pillars that include property development and property management activities, cultural tourism and related "new retail" businesses as well as integrated media-related businesses.

Commenting on this new property development project, Mr Ji Zenghe, Executive Chairman of The Place Holdings, said, "We are always exploring initiatives to improvise the development of our businesses, including partnering with reputable, like-minded developers like MCC Land, who is one of the top developers and builders in Singapore.

Together with our synergistic strengths, THE PLACE HOLDINGS will bring our expertise and experience in property and retail management, which we aim to develop into "new retail" destinations, catering to the under-served retail needs for the local community.

The strategic framework agreement signed recently has set the stage for both companies to join forces together for a long-term working relationship and it is part of our strategy to maximise the returns on our property developments and diversify our income portfolio."
