## 8. Review of the Group's performance

### Revenue

For 2Q07, the Group achieved revenue of \$24.6 million, representing a 7% decrease from \$26.3 million in 2Q06. The lower revenue was due mainly to the continued sluggish demand for Laser Drilling in Taiwan and price reduction pressures from customers.

### China

In China, revenue for PCB Manufacturing remained somewhat flat with a slight dip of 0.3% from \$17.5 million in 2Q06 to \$17.4 million in 2Q07. PCB Manufacturing is the key revenue contributor, accounting for 71% of Group revenue.

The revenue for Mechanical Drilling in China increased 22% from \$3.7 million in 2Q06 to \$4.5 million in 2Q07 as the Group's mechanical drilling capacity increased from 90 machines in 2Q06 to 126 machines in 2Q07.

The revenue from Routing services in China dropped slightly from \$1.4 million to \$0.7 million. Revenue from Routing services accounted for 3% of Group revenue.

### Taiwan

Demand for Laser Drilling continued to be slow in 2Q07 as we have expected and elaborated in our 1Q07 announcement. Although the machine utilization rates in 2Q07 were lower compared to 2Q06, they have improved compared to 1Q07.

### Profitability

#### Gross Profit

Gross Profit for 2Q07 decreased from \$9.0 million in 2Q06 to \$2.3 million in 2Q07. Group Gross Profit Margin fell from 34.2% to 9.4% as a result of various factors including:

- (i) Continued sluggish demand for the higher-margin Laser Drilling services in 2Q07
- (ii) Lower machine utilization rates for PCB manufacturing in China as the 2nd quarter is also a seasonally slow period
- (iii) Higher depreciation cost due to the increase in the number of machines in 2Q07 compared to 2Q06
- (iv) The increase in cost of goods due to:
  - a. Rise in raw material prices since 2Q06 which are still on the high side;
  - b. The Group's difficulty to pass on the higher raw material costs
- (v) Increased orders of higher layer count projects in 2Q07 which had lower margins
- (vi) Increase in direct labour related costs due to increased headcount as a result of expansion in the PCB manufacturing plants and the new plant, Lian Han Xin in Shanghai

Administrative expenses comprise operating expenses which include labour cost, office rental and related office expenses. Administrative expenses have decreased as the Group was more careful on cost control and improved efficiency.

Distribution costs include sales commission payable to sales representatives in processing sales for PCB operations. Distribution costs have decreased relatively due to lower sales.

Finance costs increased from \$0.55 million in 2Q06 to \$0.92 million in 2Q07 mainly due to higher borrowings required to fund the purchase of new machines in 2Q07.

Income tax in 2Q07 was \$116,000 which is based on chargeable income from profitable companies within the Group which cannot be used to offset against the loss from the Group's other subsidiaries.

#### Balance Sheet

The Group is in the net current liabilities position as most of its loans are short term and renewed annually. The Group has not encountered any difficulties in servicing these loans. The Group has also been making efforts to secure longer term loans to ease the situation.

The Group's cash position stood at \$16.5 million, which is adequate to meet its day-to-day operational needs.

Total debt borrowings of the Group decreased by \$2.2 million from 1Q07 to \$55.46 million. The net debt gearing has reduced to 42%.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast or prospect statement was disclosed to shareholders previously.

10. A commentary at the date of announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

As anticipated in our 1Q07 announcement, the slow demand for Laser Drilling services continued into 2Q07. This was compounded by the low machine utilization rates for PCB manufacturing which experienced its seasonally lower demand normally experienced in the second quarter.

Although the demand for Laser Drilling in 2Q07 continued to be sluggish, there was an recovery over 1Q07, and as at end July 2007, the utilization rates for the various business segments - with the exception of PCB manufacturing - have increased across-the-board. Going forward, we are also pleased to note that order book visibility for the rest of the year is expected to improve substantially.

For 2H2007, the Group expects machine utilization rates for Drilling services and PCB manufacturing to improve, primarily because of the greater demand for electronic products in the second half of the year. In addition, we expect the demand for Laser Drilling to increase as new mobile phone models are expected to be launched in the market, following the successful launch of iPhone recently. The pickup in demand for notebooks is also expected to drive demand for PCB manufacturing.

The Group will continue to be judicious in making capital expenditure investments by ensuring that they are aligned to the market demand conditions. Stringent measures will also be put in place to tighten the cost structure especially for raw materials.

Overall, the Group remains optimistic of delivering a profitable set of results for the entire year.

**11. Dividend**

**11(a) Any dividend declared for the current financial period reported on?**

None

**11(b) Any dividend declared for the corresponding period of the immediately preceding financial year?**

None

**11(c) Date payable**

Not applicable

**11(d) Books closure date**

Not applicable

**12. If no dividend has been declared/ recommended, a statement to that effect.**

No dividend has been declared for the second quarter ended 30 June 2007.

**PART II - ADDITIONAL INFORMATION REQUIRED FOR FULL YEAR ANNOUNCEMENT**

**(This part is not applicable to Q1, Q2, Q3 or Half Year Results)**

**13. Segmented revenue and results for business or geographical segments (of the group) in the form presented in the issuer's most recently audited annual financial statements, with comparative information for the immediately preceding year.**
