8. Review of the Group's performance

Revenue

For the financial year ended 31 December 2007 ("FY2007"), the Group reported revenue of \$116.1 million, a slight increase of 4% from \$111.8 million in the preceding financial year (FY2006). The increase was driven primarily by improved sales from the mechanical drilling and PCB manufacturing businesses.

On a quarterly basis, sales for the fourth quarter of FY2007 (4Q07) saw an increase of 24% to \$35.3 million from \$28.5 million in 4Q06. This is due to increased sales from laser drilling, mechanical drilling and PCB manufacturing businesses.

PCB Operations

PCB Manufacturing which accounts for approximately 65% of Group revenue, increased by 6% from \$71.7 million in FY2006 to \$75.9 million in FY2007. The growth was mainly attributable to an increase in demand from the existing customers.

In 4Q07, PCB manufacturing increased by 15% compared to 4Q06 due to increase in demand in China, and remains as the key contributor to group revenue.

Drilling and Routing

The Group saw its revenue from mechanical drilling improve during the year by 30%. However revenue from laser drilling and routing reduced by 18%. As a result, revenue from this segment increased slightly from \$40.1 million in FY2006 to \$40.3 million in FY2007.

In 4Q07, revenue for mechanical drilling and laser drilling increased by 23.5% and 111% compared to 4Q06 respectively. This is because of an increase in demand for drilling services required for sophisticated electronic products such as new models of mobile phones with greater technology which were launched in the market.

Geographical Markets

China continued to be the key contributor to the Group's top line in FY2007 with \$102.6 million as against \$93.2 million in FY2006, and accounted for approximately 88% of Group revenue.

Taiwan operations reported a decrease of \$5 million from \$18.5 million to \$13.5 million. This is attributable to lower market demand for laser drilling and increased competition in the market.

Profitability

Gross Profit

In FY2007, Gross Profit decreased by 46%, from \$35.0 million to \$18.7 million. This is due to lower-than-expected sales for laser drilling and increased cost of sales. The higher cost of sales was because of the higher depreciation costs for an increased number of machineries and plants as well as the rising costs of raw materials. As a result, Gross Profit Margin decreased by 15% from 31% in FY2006 to 16% in FY2007. This reflects an overall decrease in all the business segments.

Profit before Tax

Profit before tax for the Group stood at \$7.4 million in FY2007, a decrease of 55% from \$16.4 million in FY2006.

Administrative costs decreased by 2%, from \$10.1 million in FY2006 to \$9.9 million this year.

Distribution costs decreased by 23% from \$5.4 million in FY2006 to \$4.2 million. This mainly due to decreased commission expenses paid to sales representatives for sale order processing for China's PCB operations as lesser sale orders were processed as well as lower provision for bad debts as we write back provision for bad debts recovered.

Other expenses declined by 94% from \$0.8 million in FY2006 to \$0.05 million. Previously in FY2006, other expenses incurred were set up and de-registration expenses for a Korea subsidiary and loss of equipment and inventory in a fire accident as well as foreign exchange loss amounting to a total of \$0.6 million. In FY2007 however, there was a foreign exchange gain of \$0.9 million included in other income.

Finance costs also increased from \$2.4 million to \$3.7 million. This is mainly due to an increase in the Group's borrowings and the rise in interest rates.

Profit after Tax

Income tax expenses for FY2007 decreased by 94% from \$1.1 million in the previous year to \$0.1 million. This is mainly due to the fall in effective tax rate of 6.5% to 0.9% due to the one-off gain on dilution of interest and deferred income tax benefit from unutilized tax credit of machinery and equipment investments recognised in FY2007.

Net profit for FY2007 decreased 53% from \$15.3 million to \$7.3 million. In the quarterly comparison basis, net profit in 4Q07 increased by \$2.3 million to \$3.6 million from \$1.3 million in 4Q06.

Financial position

Cash and cash equivalents stood at \$27.1 million in FY2007, an increase of approximately \$7.1 million from \$20.0 million in FY2006.

Trade receivables also increased from \$37.5 million in previous year to \$53.2 million due to longer credit terms given to long term customers.

Other receivables increased mainly due to increase in deposits in advance, prepayments and tax refund receivable.

Inventories increased slightly from \$10.2 million in FY2006 to \$10.4 million in FY2007.

In FY2007, the Group purchased 50 years of land use rights for Shanghai Zeng Kang, Shanghai Zhuo Kai and Shanghai Eu Ya and these were reflected under current and non current assets.

Property, plant and equipment increased from \$117.3 million to \$129.4 million as the Group purchased 50 mechanical drilling machines and 7 laser drilling machines in China as well as another 7 laser drilling machines in Taiwan over the year.

Trade payables increased from \$23.9 million to \$29.7 million. This is due to increase in payables to suppliers for raw materials. Other payables on the other hand, decreased due to promissory notes issued to suppliers included in FY06. These promissory notes are due payable from year 2007 to 2010 and have been reclassified to notes payables in FY07.

Total borrowings of the Group increased from \$55.3 million in FY2006 to \$86.0 million. This is due to the loans required to fund the purchase of machineries.

Financial derivative arises due to the company entering into a cross currency rate swap with Standard Chartered Bank in 4Q07 to hedged its foreign currency and interest rate risk for its USD loan.

Net Gearing ratio stood at 0.63. The Group has a positive cash flow and a net cash position of \$21.0 million.

9. **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The results announced are in line with the statement made in the company's profit guidance announcement made on 19 December 2007.

10. **A commentary at the date of announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

In the beginning of 2008, the Group has observed improving sentiments in market demands for laser drilling services in Taiwan. This is due mainly to increased demand from existing customers who require a high level of sophistication in drilling for their range of products.

Operations in China however have experienced some challenges due to the severe weather conditions in the beginning of 2008. The unprecedented bad weather has posed problems in logistics, transportation and operations for the Group's businesses in China. In addition, some of the existing customers and business associates have also seen a decrease in business activities. As a result, the Group's operations in China have also experienced lesser business activities. The Group expects the likely adverse results from its China operations to affect the overall performance of the Group in the coming first quarter of the year.

11. Dividend

11(a) Any dividend declared for the current financial period reported on?

No dividend has been declared for the current financial year reported on.

11(b) Any dividend declared for the corresponding period of the immediately preceding financial year?

Previous period

Name of Dividend	Final
Dividend Type	Cash
Dividend Amount per shares	0.5 Cents
Par value of shares	5.0 cents
Tax rate	Tax exempt (one-tier)

11(c) Date payable

Not applicable

11(d) Books closure date

Not applicable

12. If no dividend has been declared/ recommended, a statement to that effect.

The Company did not recommend or declare any dividend for the financial period ended 31 December 2007.

PART II - ADDITIONAL INFORMATION REQUIRED FOR FULL YEAR ANNOUNCEMENT
(This part is not applicable to Q1, Q2, Q3 or Half Year Results)

13. Segmented revenue and results for business or geographical segments (of the group) in the form presented in the issuer's most recently audited annual financial statements, with comparative information for the immediately preceding year.
