## 8. Review of the Group's performance

### Revenue

Group Revenue declined by 54% to \$30.0 million from \$64.8 million in 1H08 on a year on year basis and by 50% to \$18.8 million from \$37.8 million in 2Q08 on a quarter on quarter basis. The decrease was due to weak demand for electronics products as a result of deep global economic slowdown and reduced consumer spending.

### PCB Operations

Revenue from PCB operations decreased by 45% to \$23.0 million from \$42.1 million in 1H08 on a year on year basis and decreased by 44% to \$14.5 million from \$25.7 million on a quarter by quarter basis. Revenue from PCB operations accounted for 77% of Group revenue.

### Drilling and Routing

Revenue from mechanical drilling and routing services decreased by 56% to \$4.3 million from \$9.8 million in 1H08 on a year on year basis and decreased by 48% to \$2.7 million from \$5.2 million in 2Q08 on a quarter by quarter basis. Revenue from laser drilling services decreased by 78% to \$2.8 million from \$12.9 million in 1H08 on a year on year basis and decreased by 78% to \$1.5 million from \$6.9 million in 2Q08 on a quarter by quarter basis.

### Geographical Markets

China operations remained key contributor to Group's revenue at 94% compared to 84% in 1H08 as weak demand in Taiwan continue from 1Q09. For the six months ended 30 June, revenue from China operations decreased by 48% to \$28.4 million from \$54.5 million in 1H08 while revenue for laser drilling in Taiwan decreased by 84% to \$1.7 million compared to \$10.3 million in the previous year.

### Profitability

#### Gross Profit

Gross Profit is affected by cost of sales, which decreased by 39% to \$33.5 million from \$54.6 million in 1H08 on a year on year basis. The lower cost of sales was due mainly to less direct materials costs used for production offset by high fixed costs including depreciation for machineries and equipment.

Gross margin dropped to negative 11.5% in 1H09 as compared to 15.7% in the corresponding period last year. On a quarter on quarter basis, gross margin dropped to negative 2.4% as compared to 16.6% in 2Q08. This is mainly due to :

- (i) Decrease in sales for drilling which has higher margins.
- (ii) Offset by increase in OEM sales from PCB operations.

Administrative expenses were higher than 2Q08 by 31% from \$2.4 million to \$3.2 million. The increase was mainly due to :

- (i) Additional allowance for doubtful receivables of \$0.9 million.
- (ii) Offsetted by the CEO, executive director and CFO have voluntarily taken a pay cut of 20% each with effect from 1 May 2009. Previously, starting from 1 October 2008 until 28 February 2009, pay cut of 84%, 54% and 50% was taken respectively. This was revised to 52%, 37% and 35% from 1 March 2009 to 30 April 2009 respectively.
- (iii) Senior personnel have also taken a pay cut of 20% since 1 November 2008.

Distribution costs comprise mainly sales commission payable to sales representatives in processing sales for PCB manufacturing and related delivery costs. Distribution costs decreased by 44% to \$0.7 million from \$1.3 million in 2Q08 as a result of lower sales.

Other expense in 2Q09 was mainly due to exchange loss as a result of appreciation of USD and JPY against RMB.

Finance costs decreased by 11% to \$1.0 million in 2Q09 from \$1.1 million in 2Q08. This was due mainly to the repayment of bank borrowings and lower interest rates.

## **Balance Sheet**

The Group's cash and bank balances decreased to \$15.2 million from \$23.2 million in FY08. Pledged bank deposits increased from \$1.0 million in FY08 to \$3.2 million due to renewal of one bank loan in 2Q09 and placement of fixed deposit for waiver of breach of financial covenant in two of our China subsidiaries.

Trade receivables decreased by \$10.4 million due to collections from weak sales since 4Q08 and allowance for doubtful receivables of \$0.9 million in 2Q09.

Trade payables decreased by \$5.5 million due to corresponding decline in sales. On the other hand, other payables increased by \$1.6 million due to refundable deposit from customer when future order is received.

Total borrowings have also reduced to \$66.2 million in 2Q09 compared with \$75.7 million in FY08. This is mainly because the Group has made some repayments of bank loans, finance leases and notes payable. Net gearing ratio decreased to 0.44x compared with 0.49x in FY08.

The Group's net current liabilities position increased from \$26.8 million in FY08 to \$32.5 million in 2Q09, mainly due to decrease in trade receivables as a result of lower sales and increase in repayments of borrowings in 2Q09 which is partially offsetted by decrease in trade payables. Current ratio stood at 0.61 for 2Q09.

The Group's current ratio (current assets/current liabilities) and debt/equity ratio are 0.61 and 1.2 respectively. The Group's equity (net assets) stands at \$75.2 million, decreasing from \$84.9 million as at beginning of the year. In the event where bank loans/facilities are not available or withdrawn the Group will face serious cashflow difficulties. The management of the Group has therefore continue to place the financial and cash management of the group as a top priority.

## **Cash Flow**

Cash Flow from operating activities was \$4.7 million for the six months 2Q09 compared to \$16.7 million in 2Q08, mainly due to net loss and decrease in collections from trade receivables.

Cash Flow used in investing activities was \$1.1 million in 2Q09 due to purchase of 5 sets of Automatic Optical Inspection machines for use in PCB operations. Cash flow used in 2Q08 was mainly due to purchase of property at Shanghai Zhuo Kai and Shanghai Eu Ya.

Cash Flow used in financing activities was \$11.8 million in 1H09, mainly due to repayment of borrowings in 1Q09 offset by increase in pledged bank deposits of \$2.2 million and increase in personal interest-free loan from the CEO to the Group.

Cash and cash equivalents stood at \$15.2 million as at 30 June 2009 and is comparable to 30 June 2008 of \$17.8 million.

## **Financial & Credit Development**

As reported previously for year ended FY2008, the Group was in breach of certain financial covenants on the outstanding long-term loans and the long-term loans were reclassified as short-term loan. As at 2Q09, the Group remained in breach and these outstanding loans totalled \$6.1 million. The Group has been fulfilling its repayment obligations in relation to these outstanding loans and the relevant banks were aware of the breaches. To date, nothing has come to our attention that these banks will demand immediate repayment.

At the same time the Group is currently taking steps to improve its liquidity position, which includes adopting cost-cutting measures and evaluating alternative sources of financing. Management believes that the Group has adequate resources to continue in its operations for the foreseeable future.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

No forecast or prospect statement was disclosed to shareholders previously.

**10. A commentary at the date of announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

For electronics industry, demand is generally higher in the second half of the year. However, in view of the global financial crisis, the management foresees demand in this coming 3Q09 may be lower than previous year.

## **Financial and Credit Risk**

The continuing credit tightness remained a risk to our Group. In particular, in view of the substantial losses incurred in 1H09 and the poor business prospect discussed above, the Board thinks it is appropriate to upgrade its caution to shareholders and investors that the ability of the Group to remain as a going concern is uncertain as it will continue to depend heavily on its continued ability to rely on banking loans and facilities in the foreseeable future.
