Mr Fan Xianyong (樊献勇), Executive Director and Chief Executive Officer of The Place Holdings, said, "We have had numerous enquiries from interested buyers and partners all this while. In order to minimise the dilution of our equity stake in TPYI, we limited the stake sale with a purpose to showcase the deep underlying value of this project. The equity stake sale at a valuation of S\$289 million reflects the strong potential and confidence of our Mount Yuntai's property project.

As the COVID-19 pandemic eases, we are seeing a boost in domestic tourism as well as a growing demand for travel, wellness and cultural immersion activation in China. The growing popularity of Mount Yuntai Geopark within China's domestic tourism industry has accelerated the rapid development of Mount Yuntai Tourist Township in recent years.

As Mount Yuntai Tourist Township develops into a well-known international tourism and ecoliving destination, we believe that the deep underlying value of our property project will be unlocked and we look forward to harness more opportunities within the Mount Yuntai Tourist Township."
