Discontinued operations refers to PCB operations, mechanical drilling and routing services. Continued operations will be made up of planning and organizing of conventions and exhibitions, planning and execution of brand and/or product promotion activities and provision of creative graphic design services.

The following income statement analysis were prepared based on discontinued operations.

INCOME STATEMENT

DISCONTINUED OPERATIONS

Revenue

For the year ended 31 December 2016 ("FY16"), the Group reported revenue of \$46.7 million, a decrease of 11% from \$52.5 million from the corresponding year 2015 ("FY15"). It is a decrease across the board with mechanical drilling and routing bearing the brunt. This is mainly due to low PCB market sentiments globally.

On the contrary, for the three months ended 31 December 2016 ("4Q16"), the Group reported revenue of \$13.1 million, an increase of 19% from \$11.0 million from the corresponding period in 2015 ("4Q15"). This improvement is carried forward from 3rd quarter of 2016 where an increase in sales orders were received from 4 major customers under PCB Operations. However, due to price competitiveness, profit margin of these sales orders was low.

PCB Operations

PCB operations continue to be the major contributor accounting for 96% of our Group's revenue in FY16. Revenue from PCB operations decreased by 4% from \$46.8 million in FY15 to \$44.8 million in FY16. As compared to FY15, the increase in sales orders in 2nd half of 2016 is unable to cover for the decrease in sales orders in 1st half of 2016.

On a quarterly basis, revenue from PCB operations increased by 29% from \$9.9 million in 4Q15 to \$12.8 million in 4Q16. This increase is due to an increase in sales orders were received from 4 major customers.

Mechanical Drilling and Routing

Revenue from Mechanical drilling and Routing segment decreased by 67% from \$5.7 million in FY15 to \$1.9 million in FY16. Mechanical drilling and routing segments are mainly made up of sub-contracted sales which are volatile to any fluctuations in market demands.

On a quarterly basis, revenue from Mechanical drilling and Routing decreased by 67% from \$1.2 million in 4Q15 to \$0.4 million in 4Q16.

Geographical Markets

China operations remained as the key contributor to Group's revenue in FY16 at 73%. Since the conversion of Taiwan subsidiary to PCB Operation in 2014, revenue from Taiwan had stabilised at a range of \$2 million to \$3 million per quarter for FY16.

Profitability

Gross Profit

Gross profit decreased from a gross profit of \$2.8 million in FY15 to \$2.7 million in FY16. Mechanical drilling and Routing segment posted a gross loss of \$0.8 million while PCB Operation made up with S\$3.5 million gross profit.

On a quarterly basis, gross profit increased from \$0.2 million in FY15 to \$4.8 million in FY16. This improvement is due to part of cost restructuring through disposal of under-utilised mechanical drilling machineries in November 2016.

Expenses

Other Income

The decrease in other income was mainly due to a \$1 million exchange gain recorded in FY15 and decrease in interest income from structured deposits. Structured deposits decreased from \$17.1 million in FY15 to \$5.2 million in FY16.

Administrative Expenses

Administrative expenses remained constant at \$9 million range for FY15 and FY16.

Distribution Costs

Distribution costs pertain mainly to sales commission payable to sales representatives in processing sales for PCB manufacturing. The slight increase in distribution costs is due to higher commission paid to sales representatives.

Other Expenses

Disposal gain or loss from sale of plant and machinery and exchange difference are classified accordingly between other income or other expenses based on the net effect in that financial period.

The decrease in other expenses from \$14.5 million in FY15 to \$2.8 million in FY16 is mainly due to \$10.0 million of impairment loss on plant and equipments and \$1 million of impairment loss on land use rights recognised in FY15. Whereas in FY16, other expenses is made up of provision of \$1 million introducer fee for Tranche 2 of the \$88 million Subscription exercise.

Finance Costs

Finance costs remained constant at \$1 million range for FY15 and FY16.
