In the event the Subscriber exercises the Bonds Subscription Option, the Company and the Subscriber shall use all reasonable endeavors to enter into a definitive subscription agreement in respect of the Bonds (the "**Bonds Subscription Agreement**") within one (1) month from the date the Bonds Subscription Option is exercised (or such other date as may be mutually agreed in writing between the Company and the Subscriber) (the "**Bonds Subscription Notification Date**").

LETTER TO SHAREHOLDERS

The Company shall make appropriate announcements in compliance with Chapter 7 of Listing Manual, as and when the Company enters into the Bonds Subscription Agreement, and convene a separate extraordinary general meeting to seek the approval of Shareholders (other than the Subscriber and its associates, who are deemed as “*interested persons*” pursuant to Chapter 9 of the Listing Manual) of (i) the Proposed Bonds Issue; (ii) the issue and allotment of any Shares pursuant to the conversion of the Bonds. For the avoidance of doubt (i) an independent financial advisor shall be appointed by the Company to advise the directors of the Company who are deemed independent for purposes of the Proposed Bonds Issue; and (ii) the listing and quotation of any Shares issued and allotted pursuant to the conversion of the Bonds is subject to the approval of the SGX-ST.

The Subscriber and the Company have agreed in the Subscription Agreement that the Bonds Subscription Agreement, when entered into, shall contain the following principle terms, along with such terms (including the redemption terms of the Bonds) customary in similar transactions:

- (a) the principle amount of the Bonds shall be equivalent to the Tranche 2 Subscription Amount;
- (b) the Bonds shall bear interest at the rate of no more than 6.00 per cent. per annum;
- (c) the Bonds shall be issued to the Subscriber upon the satisfaction of waiver (as the case may be) of the conditions precedent set out in the Bonds Subscription Agreement, which for the avoidance of doubt shall include the approval of Shareholders for the Proposed Bonds Issue in an extraordinary general meeting to be convened (the “**Bonds Issue Date**”); and
- (d) the Subscriber shall have the right to convert all its Bonds into up to 2,426,759,333 Shares (which for the avoidance of doubt shall be adjusted accordingly in the event the Company undertakes any Corporate Exercises subsequent to the Bonds Issue Date) at an exercise price to be determined, which shall not be less than the Issue Price during the period commencing three (3) years from the Bonds Issue Date.

Upon the issue and subscription of the Bonds on the Bonds Issue Date and on such terms set out in the Bonds Subscription Agreement, the Company and the Subscriber shall release one another from any and all obligations with respect to the Tranche 2 Subscription Amount and the Tranche 2 New Shares under the Subscription Agreement. The Company will make periodic announcement(s) on this matter to update Shareholders as appropriate.

Notwithstanding the Subscriber having exercised the Bonds Subscription Option, in the event (i) the Bonds Subscription Agreement is not entered into within one (1) month from the Bonds Subscription Notification Date (or such other date as may be mutually agreed by the Parties in writing); and/or (ii) the Bonds are not issued by the Bonds Issue Date in accordance with the terms of the Bonds Subscription Agreement, the Subscriber remains obligated to proceed with Tranche 2 Completion and subscribe the Tranche 2 New Shares in consideration for the Tranche 2 Subscription Amount, unless otherwise agreed in writing between the Company and the Subscriber.

3.9. Board Composition and Senior Management

Upon Tranche 1 Completion, the Subscriber intends to form a new board of directors (“**Proposed Board Composition**”) comprising six (6) directors, among which (i) two (2) executive directors shall be nominated by the Fund Substantial Investors; (ii) one (1) non-executive director shall be nominated by the Fund Manager; and (iii) three (3) independent directors shall be recommended by the Fund Manager. With the implementation of the Proposed Board Composition, it is pertinent to highlight that there will a strong independent element in the new board of directors, with independent Directors making up 50% of the new board of directors, consistent with the requirement set out under the Code of Corporate Governance.

LETTER TO SHAREHOLDERS

Meanwhile, the day-to-day operations of the Company will be led by a senior management team who will provide the Group with strategic direction and set the policy in respect of the Media Business. The senior management shall comprise qualified professionals with varied qualification and experience, the majority of whom to be recruited by the Fund Manager. Whilst the Fund Substantial Investor will be entitled to nominate members of the senior management team, the Fund Manager envisages that members of the senior management team nominated by the Fund Substantial Investors will not form more than one-third of the eventual senior management team.

3.10. Relationship between the investors of the Subscriber (the “Fund Investors”) and the Fund Manager

As a discretionary private equity fund, the Fund Manager has exercised the investment discretion accorded to it by entering into the Subscription Agreement with the Company for purposes of the Proposed Subscription. Upon Tranche 1 Completion, any further decisions with regards to the use of proceeds arising from the Proposed Subscription will be made by the board of directors of the Company, and subject to the approval of Shareholders and/or the SGX-ST, where required.

The relationship between the Fund Manager and the Fund Investors are governed by the definitive agreements of the Subscriber. The term of the Subscriber is for a period of three (3) years with an option to extend up to another three (3) additional one year periods. Unless otherwise agreed between the Fund Manager and the Fund Investors, upon the expiration of the term of the Subscriber, the Subscriber will either (i) be dissolved and proceeds distributed to the Fund Investors, or (ii) undertake an in-specie distribution to the Fund Investors, each in accordance with its terms.

Where nominees of either the Fund Manager or the Fund Investors (in particular the Fund Substantial Investors) quit the Company prior to the expiry of the Subscriber, the Company will adhere to best practices of corporate governance to appoint new Directors and/or key executive officers, as applicable.

3.11. Use of Proceeds

The Company intends to use the proceeds of approximately S\$93.7 million (“**Gross Proceeds**”) from (i) the issue and allotment of the Tranche 1 New Shares; (ii) the issue and allotment of the Tranche 2 New Shares or the Proposed Bonds Issue, as the case may be; and (iii) the Proposed Option Shares Issue, if applicable, for the following purpose:

	% of Gross Proceeds from the issue of the New Shares and Option Shares
Proposed use of Gross Proceeds	
(a) Proposed acquisitions of assets in the Media Business to be undertaken by the Company	80
(b) Working capital and general corporate purposes (for the existing and new businesses)	20

Shareholders should note that the proposed distribution set out above only serves as a general guideline. In the event that the Gross Proceeds initially allocated for the purposes set out in (a) above are not fully applied towards such uses for any reasons, the Company shall use the remaining Gross Proceeds for working capital of the Group and/or for such other purposes as the Company may in their discretion may deem fit.

Pending the deployment of any part of the Gross Proceeds, such unutilised proceeds may be placed as deposits with banks and/or financial institutions, invested in short term money markets or debt instruments or for any other purpose on a short term basis as the Directors may, in their absolute discretion, deem fit from time to time.

The Company will make periodic announcements on the utilisation of the Gross Proceeds, after the Gross Proceeds are materially disbursed.

LETTER TO SHAREHOLDERS

3.12. Shareholders' Approval

Under Rule 805 of the Listing Manual, any issue of shares or convertible securities not covered under a general mandate must be specifically approved by Shareholders in a general meeting. Accordingly, the Proposed Subscription shall be made pursuant to the specific approval of the Shareholders.

The issued and paid-up share capital of the Company immediately prior to Tranche 1 Completion comprises 570,000,000 Shares ("**Existing Share Capital**"). Assuming that (i) 4,926,759,333 New Shares and 279,764,726 Option Shares shall be issued to the Subscriber for the Maximum Subscription Amount, the Subscriber may hold up to approximately 88.54% of the Enlarged Share Capital; and (ii) up to 104,130,481 Introducer Shares are issued to the Introducer, the Introducer shall hold approximately 1.77% of the Enlarged Share Capital.

The aggregate of the New Shares and maximum number of Option Shares will represent approximately 913.43% of the issued and paid-up share capital of the Company as of the Latest Practicable Date, being the Existing Share Capital, and 88.54% of the Enlarged Share Capital, as the case may be.

Please refer to Section (6) of this Circular for the assumptions and illustrative calculations of the dilution effects pursuant to the Proposed Subscription.

To the best knowledge of the Directors, save as disclosed in Section 1.1 in relation to the Proposed Subscription pursuant to which the Subscriber, the Undertaking Shareholder and the Company were signatories of the Subscription Agreement, the Subscriber does not have any other connections (including business relationships) with the Company, its directors and substantial shareholders.

The Subscriber and the Introducer do not fall within any of the prohibited categories as set out in Rule 812 of the Listing Manual to whom the Company is prohibited from issuing the Shares.

3.13. Rationale for the Proposed Subscription

The rationale for the Proposed Subscription is twofold:

(a) Increase the Company's market capitalisation

As announced by the Board on 4 March 2014, the SGX-ST placed the Company on the watch-list with effect from 5 March 2014. The Company will have to fulfill the requirements under Rule 1314 of the Listing Manual for its removal from the watch-list no later than 5 March 2016 (i.e. within 24 months from 5 March 2014). As announced by the Board on 1 March 2016, the SGX-ST granted the Company an extension of time of up to 12 months to 4 March 2017 to meet the requirements for removal from the watch-list, subject to certain conditions set out therein.

The Proposed Subscription would enable the Company to increase its market capitalisation to support an application to the SGX-ST for an extension of time to satisfy the requirements under Rule 1314 of the Listing Manual, failing which the SGX-ST would delist the Company or suspend trading of the Shares with a view to delisting the Company.

Rule 1314 of the Listing Manual states that an issuer on the watch-list may apply to the SGX-ST for its removal from the watch-list if it satisfies any one of the following requirements:

- (i) the issuer records consolidated pre-tax profit for the most recently completed financial year (based on the latest full-year consolidated audited accounts, excluding exceptional or non-recurrent income and extraordinary items) and has an average daily market capitalisation of S\$40 million or more over the last 120 market days on which trading was not suspended or halted for a full market day; or

LETTER TO SHAREHOLDERS

- (ii) the issuer satisfies the Rule 210(3) of the Listing Manual and either one of the following requirements: (A) cumulative consolidated pre-tax profit of at least S\$7.5 million for the last three years, and a minimum pre-tax profit of S\$1 million for each of those three years; or (B) cumulative consolidated pre-tax profit of at least S\$10 million for the last one or two years. Rule 210(3)(a) of the Listing Manual applies to the last one year or last two years as the case may be.

For the avoidance of doubt (i) Shareholders should note that the Company's removal from the watch-list is not a condition precedent to the Proposed Subscription; and (ii) there is no certainty that completion of the Proposed Subscription will result in the Company's removal from the watch-list.

- (b) Raise funds for the Proposed Diversification

The core business of the Group is the mechanical drilling, laser drilling, routing, manufacturing of integrated printed circuit boards, which has been adversely affected amidst lackluster growth in the world economy over the past few years. The outlook for major economies is expected to continue to be lackluster with the pace of recovery likely to be uneven across various countries. In the face of ever-changing consumer demand in the Group's core business market, the Company believes it is crucial not only to keep ahead of the competition with relevant expertise and knowledge, but also to differentiate itself and look for diversification opportunities to generate sales from additional viable sources. Accordingly, the Proposed Subscription is intended to raise funds for purposes of the Proposed Diversification. Please see Section (7) for more details on the Proposed Diversification.

For the avoidance of doubt, the Company had agreed to allot and issue the New Shares and Option Shares to the Subscriber primarily due to, among other things, the repute of the Fund Manager as well as the Proposed Diversification as presented by the Fund Manager and outlined under Section 7.1.

3.14. Moratorium Undertaking

To demonstrate commitment to the Proposed Subscription and Proposed Diversification, the Subscriber has on 15 September 2016 provided a moratorium undertaking in favour of the Company, pursuant to which it has undertaken not to sell, transfer, charge, dispose, mortgage, pledge or otherwise deal with any Tranche 1 New Shares for a period of 6 months after the Tranche 1 Completion Date.

(4) THE PROPOSED WHITEWASH RESOLUTION

4.1. Rule 14 of the Code

Under Rule 14 of the Code and Section 139 of the SFA, where (a) any person acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30.0% or more of the voting rights of a company; or (b) any person who, together with persons acting in concert with him, holds not less than 30.0% but not more than 50.0% of the voting rights and such person, or any person acting in concert with him, acquires in any period of six (6) months additional shares carrying more than 1.0% of the voting rights, such person must extend offers immediately to the holders of any class of share capital of the company which carries votes and in which such person, or persons acting in concert with him, hold shares.

LETTER TO SHAREHOLDERS

4.2. Issue of the Tranche 1 New Shares

As at the Latest Practicable Date, the Subscriber does not hold any interest in any Shares. For the avoidance of doubt, the Subscriber is not acting in concert with any party in respect of the Proposed Subscription. The foregoing information relating to the Subscriber was provided to the Company by the Subscriber. The Board of Directors has not conducted an independent review or verification of the accuracy of such statements and information.

Pursuant to the Tranche 1 Subscription, the Subscriber will own approximately 80.13% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares. Thereafter, the Subscriber and its concert parties (if any) will be free to acquire further Shares (including the Tranche 2 New Shares, Option Shares and/or new Shares arising from the conversion of the Bonds) without incurring any obligation under Rule 14 of the Code to make a general offer for the Company.

Accordingly, the Company seeks Independent Shareholders' approval for the Proposed Whitewash Resolution at the EGM. The Subscriber, parties acting in concert with it and parties not independent of them, shall abstain from voting on the Proposed Whitewash Resolution.

Shareholders should note that should the Proposed Whitewash Resolution be approved, the Subscriber and its concert parties may hold in excess of 49.0% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares, and the Subscriber and its concert parties will thereafter be free to acquire further Shares in the Company without incurring any obligation under Rule 14 of the Code to make a general offer for the Company.

4.3. Conditional Waiver by the Council

The Council had on 2 February 2016 granted the Company a waiver as supplemented by the Council on 29 July 2016 of the obligation of the Subscriber to make a mandatory offer of the Shares under Rule 14 of the Code which may arise following the allotment and issue of Tranche 1 New Shares either:

- (i) upon the acquisition by the Subscriber of shares carrying 30% or more of the voting rights of the Company; or
- (ii) in the event that the Subscriber, together with its concert parties shall hold not less than 30% but not more than 50% of the voting rights, the acquisition by the Subscriber and/or its concert parties in any period of 6 months, of additional shares carrying more than 1% of the voting rights,

The waiver of the requirement of the Subscriber to make a general offer for the Company under Rule 14 of the Code in the event that the Subscriber's aggregate holdings in the Company increase to 30% or more of the total voting rights in the Company immediately after the subscription of the Tranche 1 New Shares, is subject to the following:

- (a) a majority of holders of voting rights of the Company present and voting at a general meeting, held before the issue of the Tranche 1 New Shares, approve by way of a poll, the Proposed Whitewash Resolution to waive their rights to receive a general offer from the Subscriber;
- (b) the Proposed Whitewash Resolution is separate from other resolutions;
- (c) the Subscriber, parties acting in concert with it and parties not independent of them, abstain from voting on the Proposed Whitewash Resolution;

LETTER TO SHAREHOLDERS

- (d) the Subscriber and its concert parties did not acquire or are not to acquire any shares in the Company or instruments convertible into and options in respect of Shares (other than subscription for, rights to subscribe for, instruments convertible into or options in respect of new Shares which have been disclosed in the Circular);
 - (i) during the period between the date of the announcement of the Proposed Subscription and the date the shareholders' approval is obtained for the Proposed Whitewash Resolution; and
 - (ii) in the 6 months prior to the date of the announcement of the Proposed Subscription, but subsequent to negotiations, discussions or the reaching of understandings or agreements with the directors of the Company in relation to the Proposed Subscription;
- (e) the Company appoints an independent financial adviser to advise the independent shareholders on the Proposed Whitewash Resolution;
- (f) the Company sets out clearly in its Circular to the Shareholders:
 - (i) details of the Proposed Subscription;
 - (ii) the possible dilution effect to the existing holders of voting rights as a result of the issue of the Tranche 1 New Shares;
 - (iii) the number and percentage of voting rights in the Company as well as the number of instruments convertible into, rights to subscribe for and options in respect of Shares held by the Subscriber and its concert parties as at the Latest Practicable Date;
 - (iv) the number and percentage of voting rights to be issued to the Subscriber as a result of the issue of the Tranche 1 New Shares;
 - (v) a specific and prominent statement that the issue of the Tranche 1 New Shares will result in the Subscriber and its concert parties holding shares carrying over 49% of the voting rights of the Company based on its enlarged issued capital and the fact that the Subscriber and its concert parties would thereafter be free to acquire further shares in the Company without incurring any obligation under Rule 14 to make a general offer;
 - (vi) a specific and prominent statement that shareholders, by voting for the Proposed Whitewash Resolution, are waiving their rights to a general offer from the Subscriber at the highest price paid by the Subscriber and its concert parties for Shares in the past 6 months preceding the commencement of the offer;
- (g) the Circular stating that the waiver granted by the Council to the Subscriber from the requirement to make a General Offer subject to the conditions stated in paragraphs (a) to (f) above;
- (h) the Company obtains the Council's approval in advance for those parts of the Circular that refer to the Proposed Whitewash Resolution; and
- (i) to rely on the Proposed Whitewash Resolution, the acquisition by the Subscriber of the Tranche 1 New Shares must be completed within three (3) months of the date of approval of the Proposed Whitewash Resolution.

LETTER TO SHAREHOLDERS

4.4. Implications of the Proposed Whitewash Resolution

Independent Shareholders should note that:

- (a) **their approval of the Proposed Whitewash Resolution is a condition precedent to the allotment and issue of Tranche 1 New Shares pursuant to the terms of the Subscription Agreement, and if Independent Shareholders do not vote in favour of the Proposed Whitewash Resolution, the Proposed Subscription will not take place;**
- (b) **the issue of the Tranche 1 New Shares may result in the Subscriber holding Shares carrying over 49.0% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares, and the Subscriber and its concert parties will be free to acquire further Shares (including the Tranche 2 New Shares, Option Shares and/or new Shares arising from the conversion of the Bonds) without incurring any obligation under Rule 14 of the Code to make a General Offer for the Company; and**
- (c) **by voting in favour of the Proposed Whitewash Resolution, they will be waiving their rights to receive the General Offer from the Subscriber at the highest price paid by the Subscriber and its concert parties for Shares which the Subscriber would otherwise be obliged to make at the highest price paid or agreed to be paid by them for the Shares in the past six (6) months preceding the commencement of the offer.**

Stirling Coleman Capital Limited has been appointed as the Independent Financial Adviser to the Recommending Directors in relation to the Proposed Whitewash Resolution. Taking into consideration the factors and analysis set out in the IFA Letter, and based upon the industry, market, economic and other relevant conditions as at the Latest Practicable Date and subject to the assumptions and qualifications set out in the IFA Letter, the IFA is of the opinion that the Proposed Whitewash Resolution, is fair and reasonable and accordingly has advised the Recommending Directors to recommend that Independent Shareholders **vote in favour** of the Proposed Whitewash Resolution to be proposed at the EGM, and to highlight to Independent Shareholders the matters as stated in the IFA Letter.

A copy of the IFA Letter is reproduced in Appendix A entitled “Letter from the Independent Financial Adviser” to this Circular.

(5) THE TRANSFER OF CONTROLLING INTEREST

Rule 803 of the Listing Manual provides that any issue of securities to transfer a controlling interest must be approved by Shareholders in a general meeting. Under the Listing Manual, a “controlling shareholder” is a person who directly or indirectly holds 15% or more of the total number of all voting shares in the Company, or a person who in fact exercises control over the Company. The Proposed New Shares Issue and the Proposed Option Shares Issue will result in the Subscriber holding more than 15% of the Enlarged Share Capital of the Company, therefore causing a transfer of controlling interest. Accordingly, the Company is seeking the approval of Shareholders for the Transfer of Controlling Interest.

As of the Latest Practicable Date, the Subscriber does not hold any Shares in the Company. Assuming that the New Shares and the Option Shares are issued at the Issue Price of S\$0.018, a maximum of 5,206,524,059 new Shares (being 4,926,759,333 New Shares and 279,764,726 Option Shares) are issued to the Subscriber, the Subscriber shall hold in aggregate approximately 913.43% of the total issued and paid-up Shares in the Company as of the Latest Practicable Date and approximately 88.54% of the total issued and paid-up Shares in the Enlarged Share Capital of the Company after such issuances. This would result in a transfer of controlling interest and is subject to the approval of the Shareholders for the purposes of Rule 803 of the Listing Manual.

LETTER TO SHAREHOLDERS

(7) THE PROPOSED DIVERSIFICATION

7.1. Details of the Proposed Diversification

The Company was incorporated in Singapore on 1 December 2001 and has been listed on the Mainboard of the SGX-ST since 30 August 2004. The Group is currently an integrated printed circuit board service provider primarily involved in the business of mechanical drilling, laser drilling, routing, manufacturing of integrated printed circuit boards ("**Existing Core Business**").

The Board understands from the Fund Manager that on Tranche 1 Completion and subject to the resolution for the Proposed Diversification being approved by Shareholders, the Subscriber intends to expand the Group's Existing Core Business to the media and digital advertising business ("**Media Business**") with the Gross Proceeds raised from the issue of the New Shares and Option Shares, as and when appropriate opportunities arise.

The Board understands from the Fund Manager that Media Business includes, *inter alia*:

- (a) provision of digital media, advertising and marketing platforms and hubs for advertising agencies and product and/or service providers;
- (b) procurement and lease of digital advertising and exhibition space;
- (c) provision and installation of advertising space such as digital billboards, multimedia hubs, outdoor/indoor electronic display monitors and installation of digital advertising media;
- (d) development and management of real estate and properties which adopt innovative and creative concepts similar to that of The Place, Beijing and the lease of such real estate, properties and/or storefronts for the purpose of, among other things, implementing/providing advertising platforms. Please see Section 3.3 for more information on The Place; and
- (e) investing in, acquiring, disposing of global real property assets, shares or interests in entities which are in the business of real estate development, which are for the purpose of or ancillary to the Media Business.

LETTER TO SHAREHOLDERS

The Board understands from the Fund Manager that it does not plan to restrict the Proposed Diversification to the Media Business to any specific geographical markets, as investments would be evaluated and assessed by the then prevailing board of directors, nominated by the Fund Manager, on their own merits. The Board understands from the Fund Manager that it may also procure the Subscriber to further procure and authorise the Group to explore joint ventures and/or strategic alliances with third parties who have the relevant expertise and resources to carry out the Media Business as and when the opportunity arises. The decision on whether a project will be undertaken by the Group on its own or in collaboration with third parties will be made by the then prevailing board of directors after taking into consideration various factors, such as the nature and scale of each project, amount of investment required and risks associated with such an investment, nature of expertise required, the period of time required to complete the project, conditions of the digital marketing and advertising market, and availability of other investment opportunities.

As at the Latest Practicable Date, no specific projects related to investments in the Media Business have been identified. The Company will update Shareholders at the appropriate time when it has identified any such projects. Please refer to the sections entitled “Rationale for the Proposed Diversification” and “Risks Factors Associated with the Proposed Diversification” as set out in sections 7.4 and 7.6 respectively of this Circular for more details on the rationale for and risks associated with the Proposed Diversification.

7.2. Funding for the Proposed Diversification

The funding for the Proposed Diversification into the Media Business and any future projects in relation to the Media Business is intended to be funded by a combination of the internal resources of the Group and external banking facilities and/or fund raising, including, if approved by Shareholders at the EGM, Gross Proceeds raised from the Proposed New Shares Issue and Proposed Option Shares Issue.

7.3. Management Personnel for the Proposed Diversification

Concurrent with the Proposed Diversification, the Company will set up a new senior management team for the Media Business to oversee the Media Business. The Company is cognizant that the Media Business and the Existing Core Business are in different sectors. Notwithstanding this, the Board recognizes the relevant expertise required can be acquired and developed by the Group over time as it progresses into the Media Business. On Completion, the board of directors of the Company and the senior management of the Group will be supplemented with individuals nominated by the Subscriber, each with varied qualifications and experience who will provide the strategic direction and set the policy in respect of the Media Business. Please see Section 3.9 for further information on the manner in which members of the senior management team of the Group shall be appointed.

7.4. Rationale for the Proposed Diversification

The Proposed Diversification is part of the corporate strategy of the Group to provide Shareholders with diversified returns and long term growth. The Company believes that the Proposed Diversification will reduce the Group’s reliance on its Existing Core Business, offer new business opportunities, provide the Group with new revenue streams and improve its prospects, so as to enhance Shareholders’ value for the Company.

The Company believes that the Proposed Diversification into the Media Business can add value to the Company and bring valuable benefit to the Shareholders in the long run as the Media Business has good growth potential in the future. The Company is of the view that the Media Business presents opportunities to enter into niche markets which will provide suitable investment opportunities for the Group, and which will provide strategic earnings and growth opportunities that can add value to the Group and bring benefits to the Shareholders. The Company further believes the revenue derived from the Media Business which represents new revenue streams for the Company is anticipated to improve the financial condition of the Group and, as such, the Company is of the view that the Proposed Diversification into the Media Business offers an attractive investment platform to the Company.

LETTER TO SHAREHOLDERS

According to PricewaterhouseCoopers¹:

- (a) global out-of-home advertising will grow at a compounded annual growth rate of 4.7% to exceed US\$40 billion by 2018. The global out-of-home advertising market is forecast to reach US\$44 billion by 2018, with the United States of America, China and the United Kingdom key growth markets. Depending on the territory, growth will be fuelled by a combination of infrastructure expansion and the benefits offered by digital out-of-home advertising; and
- (b) digital out-of-home advertising revenue will see significant growth in emerging markets, whereby digital out-of-home advertising is driving overall out-of-home advertising growth globally at a compounded annual growth rate of 16.2%. However, in certain emerging markets, digital out-of-home advertising revenue is forecast to grow even more rapidly, with compounded annual growth rates in excess of 30%, and China set to become the largest digital out-of-home advertising market in the world by 2017.

7.5. Investment in Media Business(es)

In order to satisfy the requirements of Rule 1314 and apply to the SGX-ST for the Company's removal from the watch-list, the Board understands from the Fund Manager that on Tranche 1 Completion and subject to the resolution for the Proposed Diversification being approved by Shareholders, the Subscriber intends to procure the new board of directors and management of the Company to actively look for potential investment opportunities by way of acquisition or otherwise in the Media Business. As and when the opportunities arise, upon satisfaction of the relevant due diligence investigation, the Company will enter into definitive documentation in order to implement its investment in the Media Business, as soon as practicable subsequent to Tranche 1 Completion and in any event no later than 4 March 2017, being the deadline imposed by the SGX-ST for the Company to meet the requirements for its removal from the watch-list (or such other date as may be approved by the SGX-ST). For the avoidance of doubt, the Subscriber has not committed to any concrete investment plans yet. In addition, the Subscriber will not rule out the possibilities to bring in other strategic partners/investors to participate in the future projects to be identified in relation to the Media Business that the Group intends to divest into.

The Board further understands from the Fund Manager that the Subscriber will procure the Company to comply with the requirements of the Listing Manual in particular Chapter 7 and Chapter 10, pursuant to which the Company will make necessary announcements and (where required by the Listing Manual) convene an extraordinary general meeting to seek Shareholders' approval for any acquisition undertaken by the Company.

7.6. Risk Factors Associated with the Proposed Diversification

The information in this Section 7.6 relating to the risk factors associated with the Proposed Diversification is based on information provided by the Fund Manager. The Board has not conducted an independent review or verification of the accuracy of the statements and information below. For the avoidance of doubt, the Proposed Diversification will be undertaken by the new board of directors and senior management nominated by the Fund Manager upon completion of the Proposed Transactions.

- (a) **The media and advertising industry is highly regulated and may be affected by changes in laws and regulations relating to such an industry.**

The outdoor media and advertising industry may be subject to significant government regulations in different countries, and such regulations may relate to the luminosity, nature, density, size and location of digital billboards and other media advertising platforms. As a result of such changes in regulations, some digital advertising spaces may have to be

LETTER TO SHAREHOLDERS

removed or relocated in the future in certain circumstances. Restrictions could include reduction of size of advertising space, ban on advertising within spaces with huge motor traffic (such as motorways, highways and major traffic routes), or restrictions based on the environmental impact of such media and advertising platforms.

Other restrictions which may affect the media and advertising industry include bans and/or restrictions in relation to certain advertising content that may be considered against government policies or public interest (such as advertisements for tobacco, alcohol and pharmaceutical products). Certain content-based advertising may be restricted in many countries and this will adversely affect the prospects of the Group as it reduces the pool of potential customers who would otherwise be unrestricted in its advertising scope and content. The content of advertisements and media must generally adhere to the policies dictated by the governments of each country, which vary from one jurisdiction to another. Advertising standards within the Group will therefore not be efficiently applied across different jurisdictions.

Furthermore, restrictions applicable to other forms of media (such as print publishing) or advertisement of certain products may be lifted or involve a gradual opening of such media standards. This may increase access to other forms of media platforms and therefore have an unfavourable impact on the demand for the Group's advertising platforms.

(b) There is no assurance that the growth and expansion of the digital media industry will grow or be beneficial to the Group.

The market for digital advertising and media has grown tremendously in line with general economic growth and increase in consumerism, however there is no guarantee that such growth will continue. While the Company intends to grow its digital advertising footprint globally, there is a risk that acquiring future digital billboards or advertising sites will not generate the projected benefits for the Company, nor result in advertising revenues or earnings growth expected by the Company. If, for instance, the Company is unable to charge or maintain a premium in respect of lease of its digital billboard space, this may result in a longer timeframe to recover costs of investments for such advertising media.

(c) There is no assurance that the Group will be able to obtain new advertising or exhibition space.

The Group's strategy includes expansion by acquiring new advertising space for lease to advertising agencies and other product and/or service providers and procuring management rights to new sites for development and installation of advertising media. Such acquisition or procurement process involves dealing with third party landlords or management companies and obtaining those advertising space and/or management rights is therefore subject to the actions of third parties beyond the control of the Group. There is no guarantee that the Company will be able to obtain such advertising space or media platforms, or the management rights to such spaces and platforms, or they may obtain such sites and management rights on conditions acceptable to the Group, or obtain them in a timely manner, or at all. Any delay or failure to secure such advertising sites or obtain the management rights to such advertising spaces will limit the Group's ability to increase its revenues from the lease of such advertising space or service fees from the provision of management services over such advertising platforms, and adversely affect its financial performance.

(d) The revenue derived from rental and lease of advertising space and media platforms may be seasonal and cyclical in nature.

The Group will generally experience fluctuations in its revenue and earning patterns. The Company's operating revenues are sensitive to discretionary spending available to advertisers and consumers, as well as advertiser and consumer perceptions of economic trends and uncertainty. Advertising expenditures generally tend to be cyclical, reflecting overall economic conditions, as well as budgeting and buying patterns. Seasonal variations

LETTER TO SHAREHOLDERS

in consumer spending may cause the Group's advertising revenues to fluctuate. Most of the Company's costs are fixed costs, being the costs of ownership of the advertising space, the digital media platforms and relevant advertising and media licences, and as such do not vary seasonally or cyclically as compared to its revenue. The seasonality of the Group's earnings may impact the Group's cash flow and cause it to require additional working capital in order to fund seasonally low periods where revenues are lower than anticipated. Such additional working capital for the Group would have to be sought by the Company, potentially at a higher cost, if available at all. The Company's operations and financial position may be adversely affected as a result of such seasonality of its revenue.

(e) Risks associated with loss of advertising platforms or failure to procure new digital media platforms.

The Company may gain access to advertising spaces either through contracts or concession agreements with asset owners, governmental departments and private landlords, or directly procure and own these advertising sites. Advertising demand will continue to be impacted by changes in economic conditions and fragmentation of the media landscape (particularly due to the rapid growth of internet-based advertising media). In recent years, technological innovations and online advertising and marketing products have become significant competitors for outdoor digital and static advertising media. The proliferation of cable and satellite channels, advances in mobile and wireless technology, the trend of migration to web-based and Internet-based products and the viewing public's increased control over the manner and timing of their media consumption through personal video recording devices, have resulted in greater fragmentation of the media and advertising industry whereby advertisers and products and service providers have a greater range of advertising media to choose from and suit their specific advertising needs.

(f) The media and advertising industry is generally affected by downturns in the economy.

In the event of a regional or global economic downturn, the advertising, media and communications sector is quite susceptible to business fluctuations as many advertisers may cut their advertising expenditure and budgets. Economic conditions may affect the levels of advertising revenue, and changes in gross domestic product, consumer spending, property prices, and unemployment rates all impact demand for digital advertising and the media industry. This may impair the Company's ability to maintain and grow its circulation and advertising revenue. A decline in the economic prospects of advertisers or the economy in general could alter current or prospective spending priorities of advertisers. Consolidation within and across various different industries, such as large department stores and telecommunications companies, may also reduce the Group's overall advertising revenue. Furthermore, competition from other media, including newspapers, broadcasters, cable systems and networks, satellite television and radio, websites, magazines, direct marketing and solo and shared mail programs, may affect our ability to retain advertising clients and may further adversely impact our ability to grow or maintain its revenues.

(g) The Group may not be able to adapt to technological changes within the media and advertising industry and may require significant capital investments due to changes in technology.

The digital advertisement and media industry are subject to rapid technological change, evolving industry standards, and the emergence of new technologies. Advances in technology have led to an increasing number of alternative advertising methods and media platforms for delivery advertising content and have resulted in a change of consumer behaviour, demands and expectations, which are also rapidly evolving. The Group may be unable to exploit new and existing technologies to distinguish our products and services from those of our competitors or adapt to new advertising methods that provide optimal marketing exposure, which could have a negative effect on the Group's business and affect the attractiveness of the our offerings to advertisers.

LETTER TO SHAREHOLDERS

The Group cannot predict the effect such new media technologies will have on our operations. In addition, any changes the Group may make to address these challenges may require significant capital investments and the capital expenditures necessary to implement these new technologies could be substantial. We may be limited in our ability to invest funds and resources in digital products, services or opportunities and we may incur costs of research and development in building and maintaining the necessary and continually evolving technology infrastructure. Some of our existing competitors and new entrants may have greater operational, financial and other resources or may otherwise be better positioned to compete for new projects and opportunities and as a result, could adversely affect our business and financial results.

(h) Increasing popularity of digital media and advertising have shifted consumer habits and advertising expenditures and these changes may adversely affect the Group's operating revenues.

The technological developments within the advertising and media industry may cause changes in consumer behaviour that could affect the attractiveness of our offerings to advertisers. The increased use of digital devices allows users the ease and flexibility of choice of advertising content, at their own time and accessible even in remote locations, while avoiding traditional commercial advertisements and media platforms, and this could adversely affect the Group's outdoor digital advertising revenues. The increasing number of digital media advertising options available on the Internet, through social networking tools, and on mobile and other devices distributing advertising content, is significantly expanding consumer choice. Advertisers and other of the Group's customers are faced with a multitude of advertising media choices and we may not be able to create sufficient advertiser interest in our media businesses or to maintain or increase the advertising rates of our digital platforms.

(i) We may face increasing competition from newer media platforms and other methods of advertising as a result of technological developments within the advertising industry.

The range of advertising choices across digital products and platforms and the large inventory of available digital advertising space have resulted in lowering advertising rates for internet-based digital advertising than for outdoor digital advertising. The shift to digital consumption has created a trend of reduction of advertising expenditures and may reduce demand for our advertising platforms and other digital media offerings, which could have an adverse effect on our businesses and assets.

(8) THE PROPOSED SHARE ISSUE MANDATE

8.1. New Share Issue Mandate

The Company had at its annual general meeting on 26 April 2016, passed a resolution pursuant to Rule 806 of the Listing Manual granting the Directors a general mandate (the "**Existing Share Issue Mandate**") to issue and allot Shares and convertible securities in the share capital of the Company.

In light of the anticipated changes to the capital structure of the Company pursuant to the Proposed Subscription and Proposed Introducer Shares Issue, it is proposed that, subject to the approval of the Shareholders of the Proposed Transactions, the Existing Share Issue Mandate be revoked and a new share issue mandate be issued to the board of directors of the Company pursuant to Rule 806 of the Listing Manual (the "**New Share Issue Mandate**").

8.2. Rationale for New Share Issue Mandate

Subsequent to the Proposed Subscription, the Subscribers' interest in the Company shall be approximately 88.54% of the Enlarged Share Capital, potentially resulting in illiquidity in the Shares held by the public. With the New Share Issue Mandate, the Company can utilise it to increase public shareholding and thus enhance liquidity in the Shares in a meaningful manner,

LETTER TO SHAREHOLDERS

relative to reliance on the Existing Share Issue Mandate which only authorises the issuance of approximately 114,000,000 Shares (being 20% of the Existing Share Capital) which amounts to only 1.94% of the Enlarged Share Capital after the Proposed Subscription. The New Share Issue Mandate will also allow the Company greater flexibility in raising funds for the proposed new business segment pursuant to the Proposed Diversification.

8.3. Terms

The New Share Issue Mandate, if approved, will authorise the board of directors of the Company to issue new Shares or convertible securities in the capital of the Company (whether by way of bonus issue, rights issue or otherwise), subject to the following limitations, namely, that the aggregate number of Shares to be issued pursuant to such authority shall not exceed 50.00% of the Prevailing Share Capital (excluding treasury shares), of which the aggregate number of Shares to be issued other than on a pro-rata basis to Shareholders following Tranche 1 Completion and Tranche 2 Completion respectively must not exceed 20.0% of the Prevailing Share Capital (excluding treasury shares).

For the purpose of determining the aggregate number of Shares and convertible securities that may be issued pursuant to the New Share Issue Mandate, the percentage of issued share capital shall be based on the aggregate of (i) the Existing Share Capital, being the Company's issued share capital as at the time of passing of the resolution approving the New Share Issue Mandate (excluding treasury shares); and (ii) the actual number of New Shares, Option Shares and Introducer Shares, as the case may be, issued and allotted pursuant to the Proposed Subscription (collectively, the "**Prevailing Share Capital**").

The New Share Issue Mandate, once approved, will continue in force until the conclusion of the Company's next annual general meeting, or the date by which the next annual general meeting of the Company is required by law to be held, whichever is earlier, unless revoked or varied by the Company in a general meeting.

1. INTRODUCTION

On 11 December 2015 (the “**Subscription Announcement Date**”), the Company announced, *inter alia*, that it had entered into a subscription agreement (the “**Subscription Agreement**”) with (i) Oriental Straits Fund III (the “**Subscriber**”), and (ii) the Executive Chairman and Chief Executive Officer of the Company, Mr. Wen Yao-Long (the “**Undertaking Shareholder**”), pursuant to which the Company has agreed to allot and issue and the Subscriber has agreed to subscribe for 5,206,524,059 New Shares, comprising up to 4,926,759,333 New Shares and up to 279,764,726 Option Shares, at S\$0.018 per Share (the “**Issue Price**”) for an aggregate amount of up to S\$93,717,433 (the “**Maximum Subscription Amount**”).

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

On 29 June 2016, the Company further announced that it had entered into a supplemental agreement to the Subscription Agreement with each of the Subscriber and the Undertaking Shareholder to *inter alia*:

- (a) permit the subscription of Shares by the Subscriber for an aggregate amount of S\$88.68 million contemplated in the Subscription Agreement to be completed in two (2) tranches:
 - (i) S\$45,000,000 (the “**Tranche 1 Subscription Amount**”) at the Issue Price (the “**Tranche 1 Subscription**”) on Tranche 1 Completion Date (has the meaning ascribed to it in **Section 3.5(a)** of the Circular) with respect to 2,500,000,000 New Shares (the “**Tranche 1 New Shares**”); and
 - (ii) S\$43,681,668 (the “**Tranche 2 Subscription Amount**”) at the Issue Price (the “**Tranche 2 Subscription**”) on Tranche 2 Completion Date (has the meaning ascribed to it in **Section 3.5(b)** of the Circular) with respect to 2,426,759,333 New Shares (the “**Tranche 2 New Shares**”); and
- (b) grant the Subscriber the option to subscribe for redeemable convertible bonds issued by the Company on such principle terms set out in **Section 3.8.9** of the Circular (the “**Bonds**”), in substitution for completing the Tranche 2 Subscription (the “**Bonds Subscription Option**”). The Subscriber may exercise the Bonds Subscription Option at any time prior to the Tranche 2 Completion Date (or such other date mutually agreed by the Subscriber, the Undertaking Shareholder and the Company (collectively, the “**Parties**”) in writing). Please see **Section 3.8.9** for more information on the Bonds.

Under Rule 14 of the Takeover Code (the “**Code**”) and Section 139 of the Securities and Futures Act (the “**SFA**”), where (a) any person acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30.0% or more of the voting rights of a company; or (b) any person who, together with persons acting in concert with him, holds not less than 30.0% but not more than 50.0% of the voting rights and such person, or any person acting in concert with him, acquires in any period of six (6) months additional shares carrying more than 1.0% of the voting rights, such person must extend offers immediately to the holders of any class of share capital of the company which carries votes and in which such person, or persons acting in concert with him, hold shares.

As at the Latest Practicable Date, the Subscriber does not hold any interest in any Shares. For the avoidance of doubt, the Subscriber is not acting in concert with any party in respect of the Proposed Subscription.

Pursuant to the Tranche 1 Subscription, the Subscriber will own approximately 80.13% of the voting rights of the Company immediately after subscription of the Tranche 1 New Shares. Thereafter, the Subscriber and its concert parties (if any) will be free to acquire further Shares (including the Tranche 2 New Shares, Option Shares and/or new Shares arising from the conversion of the Bonds) without incurring any obligation under Rule 14 of the Code to make a general offer for the Company.

Accordingly, the Company seeks Independent Shareholders’ approval for the Proposed Whitewash Resolution at the EGM. The Subscriber, parties acting in concert with it and parties not independent of them, shall abstain from voting on the Proposed Whitewash Resolution.

Shareholders should note that should the Proposed Whitewash Resolution be approved, the Subscriber and its concert parties may hold in excess of 49.0% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares, and the Subscriber and its concert parties will thereafter be free to acquire further Shares in the Company without incurring any obligation under Rule 14 of the Code to make a general offer for the Company.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The Board understands from the Fund Manager that it does not plan to restrict the Proposed Diversification to the Media Business to any specific geographical markets, as investments would be evaluated and assessed by the then prevailing board of directors, nominated by the Fund Manager, on their own merits. The Board understands from the Fund Manager that it may also procure the Subscriber to further procure and authorise the Group to explore joint ventures and/or strategic alliances with third parties who have the relevant expertise and resources to carry out the Media Business as and when the opportunity arises. The decision on whether a project will be undertaken by the Group on its own or in collaboration with third parties will be made by the then prevailing board of directors after taking into consideration various factors, such as the nature and scale of each project, amount of investment required and risks associated with such an investment, nature of expertise required, the period of time required to complete the project, conditions of the digital marketing and advertising market, and availability of other investment opportunities.

As at the Latest Practicable Date, no specific projects related to investments in the Media Business have been identified. The Company will update Shareholders at the appropriate time when it has identified any such projects. Please refer to the sections entitled “Rationale for the Proposed Diversification” and “Risks Factors Associated with the Proposed Diversification” as set out in **Sections 7.4** and **Section 7.6** respectively of the Circular for more details on the rationale for and risks associated with the Proposed Diversification.

7. THE PROPOSED WHITEWASH RESOLUTION

7.1 Rule 14 of the Code

Under Rule 14 of the Code and Section 139 of the SFA, where (a) any person acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30.0% or more of the voting rights of a company; or (b) any person who, together with persons acting in concert with him, holds not less than 30.0% but not more than 50.0% of the voting rights and such person, or any person acting in concert with him, acquires in any period of six (6) months additional shares carrying more than 1.0% of the voting rights, such person must extend offers immediately to the holders of any class of share capital of the company which carries votes and in which such person, or persons acting in concert with him, hold shares.

7.2 Issue of Tranche 1 New Shares

As at the Latest Practicable Date, the Subscriber does not hold any interest in any Shares. For the avoidance of doubt, the Subscriber is not acting in concert with any party in respect of the Proposed Subscription. The foregoing information relating to the Subscriber was provided to the Company by the Subscriber. The Board of Directors has not conducted an independent review or verification of the accuracy of such statements and information.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Pursuant to the Tranche 1 Subscription, the Subscriber will own approximately 80.13% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares. Thereafter, the Subscriber and its concert parties (if any) will be free to acquire further Shares (including the Tranche 2 New Shares, Option Shares and/or new Shares arising from the conversion of the Bonds) without incurring any obligation under Rule 14 of the Code to make a general offer for the Company.

Accordingly, the Company seeks Independent Shareholders' approval for the Proposed Whitewash Resolution at the EGM. The Subscriber, parties acting in concert with it and parties not independent of them, shall abstain from voting on the Proposed Whitewash Resolution.

Shareholders should note that should the Proposed Whitewash Resolution be approved, the Subscriber and its concert parties may hold in excess of 49.0% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares, and the Subscriber and its concert parties will thereafter be free to acquire further Shares in the Company without incurring any obligation under Rule 14 of the Code to make a general offer for the Company.

7.3 Conditional Waiver by the Council

The Council had on 2 February 2016 granted the Company a waiver (as supplemented by the Council on 29 July 2016) of the obligation of the Subscriber to make a mandatory offer of the Shares under Rule 14 of the Code which may arise following the allotment and issue of Tranche 1 New Shares either:

- (i) upon the acquisition by the Subscriber of shares carrying 30% or more of the voting rights of the Company; or
- (ii) in the event that the Subscriber, together with its concert parties shall hold not less than 30% but not more than 50% of the voting rights, the acquisition by the Subscriber and/or its concert parties in any period of 6 months, of additional shares carrying more than 1% of the voting rights,

The waiver of the requirement of the Subscriber to make a general offer for the Company under Rule 14 of the Code in the event that the Subscriber's aggregate holdings in the Company increase to 30% or more of the total voting rights in the Company immediately after the subscription of the Tranche 1 New Shares, is subject to the following:

- (a) a majority of holders of voting rights of the Company present and voting at a general meeting, held before the issue of the Tranche 1 New Shares, approve by way of a poll, the Proposed Whitewash Resolution to waive their rights to receive a general offer from The Subscriber;
- (b) the Proposed Whitewash Resolution is separate from other resolutions;
- (c) the Subscriber, parties acting in concert with it and parties not independent of them, abstain from voting on the Proposed Whitewash Resolution;
- (d) the Subscriber and its concert parties did not acquire or are not to acquire any shares in the Company or instruments convertible into and options in respect of Shares (other than subscription for, rights to subscribe for, instruments convertible into or options in respect of new Shares which have been disclosed in the Circular);
 - (i) during the period between the date of the announcement of the Proposed Subscription and the date the shareholders' approval is obtained for the Proposed Whitewash Resolution; and

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (ii) in the 6 months prior to the date of the announcement of the Proposed Subscription, but subsequent to negotiations, discussions or the reaching of understandings or agreements with the directors of the Company in relation to the Proposed Subscription;
- (e) the Company appoints an independent financial adviser to advise the independent shareholders on the Proposed Whitewash Resolution;
- (f) the Company sets out clearly in its Circular to the Shareholders:
 - (i) details of the Proposed Subscription;
 - (ii) the possible dilution effect to the existing holders of voting rights as a result of the issue of the Tranche 1 New Shares;
 - (iii) the number and percentage of voting rights in the Company as well as the number of instruments convertible into, rights to subscribe for and options in respect of Shares held by the Subscriber and its concert parties as at the Latest Practicable Date;
 - (iv) the number and percentage of voting rights to be issued to the Subscriber as a result of the issue of the Tranche 1 New Shares;
 - (v) a specific and prominent statement that the issue of the Tranche 1 New Shares will result in the Subscriber and its concert parties holding shares carrying over 49% of the voting rights of the Company based on its enlarged issued capital and the fact that the Subscriber and its concert parties would thereafter be free to acquire further shares in the Company without incurring any obligation under Rule 14 to make a general offer;
 - (vi) a specific and prominent statement that shareholders, by voting for the Proposed Whitewash Resolution, are waiving their rights to a general offer from the Subscriber at the highest price paid by the Subscriber and its concert parties for Shares in the past 6 months preceding the commencement of the offer;
- (g) the Circular stating that the waiver granted by the Council to the Subscriber from the requirement to make a general offer subject to the conditions stated in paragraphs (a) to (f) above;
- (h) the Company obtains the Council's approval in advance for those parts of the Circular that refer to the Proposed Whitewash Resolution; and
- (i) to rely on the Proposed Whitewash Resolution, the acquisition by the Subscriber of the Tranche 1 New Shares must be completed within three (3) months of the date of approval of the Proposed Whitewash Resolution.

7.4 Implications of the Proposed Whitewash Resolution

Independent Shareholders should note that:

- (a) **their approval of the Proposed Whitewash Resolution is a condition precedent to the allotment and issue of Tranche 1 New Shares pursuant to the terms of the Subscription Agreement, and if Independent Shareholders do not vote in favour of the Proposed Whitewash Resolution, the Proposed Subscription will not take place;**

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (b) the issue of the Tranche 1 New Shares may result in the Subscriber holding Shares carrying over 49.0% of the voting rights of the Company immediately after the subscription of the Tranche 1 New Shares, and the Subscriber and its concert parties will be free to acquire further Shares (including the Tranche 2 New Shares, Option Shares and/or new Shares arising from the conversion of the Bonds) without incurring any obligation under Rule 14 of the Code to make a general offer for the Company; and
- (c) by voting in favour of the Proposed Whitewash Resolution, they will be waiving their rights to receive the general offer from the Subscriber at the highest price paid by the Subscriber and its concert parties for Shares which the Subscriber would otherwise be obliged to make at the highest price paid or agreed to be paid by them for the Shares in the past six (6) months preceding the commencement of the offer.

8. EVALUATION OF THE PROPOSED WHITEWASH RESOLUTION

In arriving at our opinion in respect of the Proposed Whitewash Resolution, we have deliberated on the following factors which we consider to be pertinent and have a significant bearing on our assessment:

- (i) Rationale of and the use of proceeds for the Proposed Subscription
- (ii) Financial Analysis of the Group
- (iii) Historical Share Price Performance and Trading Liquidity
- (iv) Issue Price comparison to Book Value
- (v) Relative Valuation Analysis
- (vi) Comparable Transactions Analysis
- (vii) Financial Effects of the Proposed Subscription
- (viii) Other relevant considerations

8.1 Rationale of and the use of proceeds for the Proposed Subscription

The rationale for the Proposed Subscription has been extracted from the Circular and set out in italics below for your reference:

“3.13. Rationale for the Proposed Subscription

The rationale for the Proposed Subscription is twofold:

- (a) *Increase the Company's market capitalisation*

As announced by the Board on 4 March 2014, the SGX-ST placed the Company on the watch-list with effect from 5 March 2014. The Company will have to fulfill the requirements under Rule 1314 of the Listing Manual for its removal from the watch-list no later than 5 March 2016 (i.e. within 24 months from 5 March 2014). As announced by the Board on 1 March 2016, the SGX-ST granted the Company an extension of time of up to 12 months to 4 March 2017 to meet the requirements for removal from the watch-list, subject to certain conditions set out therein.

The Proposed Subscription would enable the Company to increase its market capitalisation to support an application to the SGX-ST for an extension of time to satisfy the requirements under Rule 1314 of the Listing Manual, failing which the SGX-ST would delist the Company or suspend trading of the Shares with a view to delisting the Company.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Rule 1314 of the Listing Manual states that an issuer on the watch-list may apply to the SGX-ST for its removal from the watch-list if it satisfies any one of the following requirements:

- (i) the issuer records consolidated pre-tax profit for the most recently completed financial year (based on the latest full-year consolidated audited accounts, excluding exceptional or non-recurrent income and extraordinary items) and has an average daily market capitalisation of S\$40 million or more over the last 120 market days on which trading was not suspended or halted for a full market day; or
- (ii) the issuer satisfies the Rule 210(3) of the Listing Manual and either one of the following requirements: (A) cumulative consolidated pre-tax profit of at least S\$7.5 million for the last three years, and a minimum pre-tax profit of S\$1 million for each of those three years; or (B) cumulative consolidated pre-tax profit of at least S\$10 million for the last one or two years. Rule 210(3)(a) of the Listing Manual applies to the last one year or last two years as the case may be.

For the avoidance of doubt (i) Shareholders should note that the Company's removal from the watch-list is not a condition precedent to the Proposed Subscription; and (ii) there is no certainty that completion of the Proposed Subscription will result in the Company's removal from the watch-list.

(b) Raise funds for the Proposed Diversification

The core business of the Group is the mechanical drilling, laser drilling, routing, manufacturing of integrated printed circuit boards, which has been adversely affected amidst lackluster growth in the world economy over the past few years. The outlook for major economies is expected to continue to be lackluster with the pace of recovery likely to be uneven across various countries. In the face of ever-changing consumer demand in the Group's core business market, the Company believes it is crucial not only to keep ahead of the competition with relevant expertise and knowledge, but also to differentiate itself and look for diversification opportunities to generate sales from additional viable sources. Accordingly, the Proposed Subscription is intended to raise funds for purposes of the Proposed Diversification. Please see Section (7) for more details on the Proposed Diversification.

For the avoidance of doubt, the Company had agreed to allot and issue the New Shares and Option Shares to the Subscriber primarily due to, among other things, the repute of the Fund Manager as well as the Proposed Diversification as presented by the Fund Manager and outlined under Section 7.1."

We noted from the above that:

(i) **Extension of watch-list status to 4 March 2017 and the Company is in a better position to remove itself from watch-list**

The Company has been placed on the watch-list since 5 March 2014 and may be removed from the Official List or be suspended imminently on 5 March 2016 if it fails to meet the profitability and/or market capitalisation requirement under Rule 1314 of the SGX-ST Listing Manual. On 25 February 2016, the Company announced that it has submitted an application to the SGX-ST for an extension of the aforementioned 24-month period to apply for its removal from the watch-list. On 1 March 2016, the Company announced that it has procured an extension of time of up to 12 months to 4 March 2017 to meet the requirements for removal from the watch-list, subject to conditions as set out in the announcement dated 1 March 2016.

The Proposed Subscription will substantially increase the share capital base of the Company, placing the Company in a better position to meet the requirements under Rule 1314 of the SGX-ST Listing Manual and to remove itself from the watch-list.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

(ii) An opportunity for diversification

The Proposed Subscription and the proceeds will provide the Group with the opportunity to diversify into a new business area and reduce the Group's reliance on its existing core PCB business which had been loss-making over the Period Under Review (as defined in section 8.2 of this Letter) and facing challenging macroeconomic conditions. The Proposed Diversification into the Media Business may provide the Group with new revenue stream, improve the prospect and growth potential of the Group and may enhance Shareholders' value.

8.2.1 Historical Financial Performance and Position

We wish to highlight the declining revenue, loss making financial performance and weak financial position of the Group over the Period Under Review; as well as the negative NTA and negative working capital of the Group as at 30 June 2016, and negative operating cash flow of the Group for 1H2016. The details as set out below:

- (i) The Group experienced a decline in revenue between FY2013 and FY2015, where revenue dropped by approximately 12.2% from FY2013 to FY2014 and approximately 9.1% from FY2014 to FY2015. The Company attributed the decline to weak global economy which impeded the Group's growth.

In 1H2016, the Group reported revenue of approximately S\$19.4 million, a decrease of 35.3% from S\$29.9 million from the corresponding period in 1H2015. This was mainly due to low PCB market sentiments globally.

- (ii) The Group's achieved gross margins of approximately 5.8% and 9.8% for FY2013 and FY2014 respectively. The Company attributed the increase in gross profit and improvement in gross margins to the restructuring exercise it undertook for its PCB operations segment to maintain its customer base above a specific profit margin, combined with a decrease in depreciation expenses for machineries following the cessation of its laser drilling business segment and disposal of related machines, as well as cost management measures. The Group's gross profit declined by approximately 50.5% in FY2015 as compared to FY2014, mainly due to the fall in the revenue.

The Group experienced a decline in gross profit from approximately S\$3.1 million in 1H2015 to S\$0.3 million in 1H2016 as well as a decrease in gross profit margin from 10.3% in 1H2015 to 1.5% in 1H2016. The Company cited gross losses from its mechanical drilling and routing segment due to fixed manufacturing expenses.

Despite the Group's cost restructuring strategy and cost management measures, the Group suffered losses before and after income tax over the Period Under Review.

- (iii) NTA of the Group

As at 30 June 2016, the Group's total equity was S\$0.4 million and its unaudited NTA (exclude non-controlling interests and deferred tax assets) was negative at approximately S\$3.0 million. This was mainly due to increased operating expenses including a net exchange loss of S\$1.4 million. We also noted that the Group's total equity had dropped by approximately S\$18.1 million in FY2015. This was mainly due to accumulated losses resulting from increased other expenses which include provision for loss on share buy-back, impairment of land use rights and impairment loss on property, plant and equipment in FY2015.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The Group's net working capital position deteriorated by S\$3.5 million from S\$0.7 million net liability position as at FY2015 to S\$4.2 million net liability position for 1H2016. The Company attributed this deterioration to the decline in sales revenue and the gross losses from fixed operating costs.

We have compared a number of financial ratios against other comparable companies in Table 4 under section 8.5 of this Letter.

(iv) Negative operating cash flow of the Group

We noted negative cash flow from operating activities in 1H2016 which was mainly due to decrease in revenue, slower receipt from trade receivables, faster repayments of trade and other payables, as well as a repayment of S\$2.1 million to HongTa Innovation Partners Co., Ltd. in relation to an early exercise of buy-back option (please refer to section 8.3.1 of the Letter for more details on the buy-back option).

(v) Emphasis of Matters by the auditors

The auditors had highlighted an the "Emphasis of Matter" in the Company's annual report for each of FY2013, FY2014 and FY2015, expressing their concerns over the net loss of the Group, the negative working capital of the Company and their doubt for the Group and the Company to operate as a going concern. The entire paragraph from the FY2015 annual report is reproduced here in its entirety:

"We draw attention to Note 1 to the financial statements which indicates that the group incurred a net loss, and the group's and the company's current liabilities exceed its current assets for the year ended December 31, 2015. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the group's and company's ability to continue as a going concern based on the key management assumptions of (a) the group's and company's ability to generate sufficient cash flows from its future operations with an improvement in economic conditions (b) the availability of continued credit facilities from the group's lenders over the next twelve months or as and when required, and (c) the ability of the group to dispose of its leasehold property in Singapore to raise funds when required. Our opinion is not modified in respect of these matters."

8.2.2 Between 1 July 2016 and the Latest Practicable Date

In respect of the above, the Directors and Management have confirmed to us that as at the Latest Practicable Date, to the best of their knowledge and belief, other than what have been disclosed in the Circular, annual reports and financial statements over the Period Under Review and its announcements on the SGXNET:

- (ii) there are no litigation, claim or proceeding pending or threatened against the Company or any of its subsidiaries or of any fact likely to give rise to any proceeding which might materially and adversely affect the financial position of the Company and its subsidiaries taken as a whole;

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (iv) there are no material acquisitions and disposals of assets by the Group between 1 July 2016 and the Latest Practicable Date, and the Group does not have any plans for any such impending material acquisition or disposal of assets, conversion of the use of its material assets or material change in the nature of the Group's business.

Note:

- Under the Basis of Subscription as stated in **Section 3.8.1** of the Circular, the Company and the Subscriber agree and acknowledge that the Proposed Subscription has been agreed on, *inter alia*, the basis that immediately prior to and as at completion of the Proposed New Shares Issue, save for the transactional costs in connection with the Proposed New Shares Issue, the Company has no liabilities (including all forms of taxation imposed by any taxation authority on the Company in relation to transactions, undertakings or arrangements entered into on or before the date of the Subscription Agreement), whether actual, deferred or contingent, and there are no off-balance sheet liabilities in the Company (including all forms of financial guarantees provided by the Company in favor of the its subsidiaries and/or any third parties) (the "**Zero Liability Requirement**").

As at 30 June 2016, the Company has total liabilities of approximately S\$55.7 million, including S\$13.4 million being an amount due to Shareholders. In connection with the condition of Zero Liability Requirement, it is envisaged that the total liabilities of the Company as at completion of the Proposed New Share Issue will be restructured from the Company to its subsidiaries within the Group.

Notes:

1. The Volume Weighted Average Price ("VWAP") was calculated by adding up the dollar value for every transaction and then dividing by the total shares traded for the day.
2. The average daily trading volume of the Shares was calculated based on the total number of Shares traded during the period divided by the number of Market Days during that period.
3. Free-float refers to approximately 419,270,226 Shares or approximately 73.6% of the issued share capital held by the public as at the Latest Practicable Date based on information provided by Bloomberg.

Based on Table 1 above, we noted that the Issue Price is:

- (i) at a discount of approximately 23.1%, 15.0% and 6.5% from the VWAP for the Shares for the period 1-month, 3-months, 6-months prior to the Holding Announcement Date; and at a premium of approximately 7.2% from the VWAP for Shares for the period 12-months prior to the Holding Announcement Date;
- (ii) at a discount of approximately 33.3% from the last transacted price of S\$0.027 on 4 December 2015 being the last Trading Day prior to the Holding Announcement (no trading volume on 6 December 2015);

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (iii) at a discount of approximately 37.2%, 34.1%, 24.7% and 11.6% from the VWAP for the Shares for the period 1-month, 3-months, 6-months and 12-months prior to the Subscription Announcement Date;
- (iv) at a discount of approximately 35.7% from the last transacted price of S\$0.028 on the Subscription Announcement Date;
- (v) at a discount of approximately 30.2% from the VWAP for the Shares for the period commencing after the Subscription Announcement Date till the Latest Practicable Date;
- (vi) at a premium of approximately 20.0% from the last transacted price of S\$0.015 on the Latest Practicable Date; and
- (vii) at higher discount in shorter period when comparing 1-month, 3-months, 6-months and 12-months VWAP for the Shares as a result of the higher than usual Share Prices and Share volume traded during the period between 1 December 2015, the Holding Announcement and the Subscription Announcement.

8.3.3 Trading Volume and Liquidity

Based on the number of Shares traded on a daily basis during the period commencing from 7 December 2014 (being 12 months prior to the Holding Announcement Date) and ending on the Latest Practicable Date, we noted that:

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

8.4 Issue Price comparison to Book Value

In assessing the reasonableness of the Issue Price, we have compared:

- (i) The Issue Price to the NTA per Share of the Group before and after the Proposed Subscription;
- (ii) The Issue Price to the RNTA per Share of the Group before and after the Proposed Subscription;
- (iii) The Share Prices of the Company against its historical NTA per Share before the Subscription Announcement Date on 11 December 2015;
- (iv) The Issue Price to the NTA/RNTA per Share of the Group against Comparable Companies; and
- (v) The Issue Price to the NTA/RNTA per Share of the Group against Comparable Transactions.

Revalued NTA (“RNTA”) of the Group

In our evaluation of the Issue Price, we have also considered whether there are any assets which should be valued at an amount that is materially different from that which is recorded in the audited and unaudited balance sheets of the Group as at 31 December 2015 and 30 June 2016 respectively. We understand from the Directors that the Company has commissioned Independent Valuers, namely Shanghai Bowo Real Estate Appraiser Firm (上海博沃房地产估价有限) to provide the fair values of the lands and properties in China as at 25 January 2016, Excellence International Real Estate Appraiser Firm (优世国际不动产估价有限公) to provide the fair values of a land and a property in Taiwan as at 29 January 2016, and Knight Frank Pte Ltd to provide the fair values of a property in Singapore as at 1 February 2016.

We have not made any independent evaluation or appraisal of the aforementioned assets (the “**Revalued Assets**”) and we have been furnished by the Company with the valuation reports (“**Valuation Reports**”) in respect of the fair value of the Revalued Assets. With respect to such valuation, we are not experts in the evaluation or appraisal of the Revalued Assets and have relied on the Valuation Reports for the fair value of the Revalued Assets and the Directors’ opinion and confirmation as mentioned in this section.

The Directors have represented that they had reviewed the Valuation Reports to understand the assumptions used by the Valuers and the information relied upon by the Valuers in arriving at the fair value of the Revalued Assets. The Directors have reviewed the information made available to them as a whole and are of the opinion that the assumptions used by the Valuers are reasonable and confirmed that the Valuers have been provided with information that to the best of their knowledge or belief is true, complete and accurate in all respects and that there is no other information or fact, the omission of which would render the assumptions used by the Valuers to be untrue, inaccurate or incomplete in any respect or misleading.

Based on the NTA of the Group as at 30 June 2016, and having made adjustment for the revaluation amount of lands and buildings of approximately S\$19.1million, less the net book value of these assets of approximately S\$17.1 million, the revaluation surplus was approximately S\$1.9 million. The RNTA per Share as at 30 June 2016 before the Proposed Subscription is negative and the RNTA per Share as at 30 June 2016 after the Proposed Subscription is 1.576 Singapore cents.

Based on the NTA of the Group as at 31 December 2015, and having made adjustment for the revaluation of lands and buildings less the net book value of these assets, the RNTA per Share as at 31 December 2015 before and after the Proposed Subscription are 0.772 Singapore cents and 1.669 Singapore cents respectively.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

8.4.4 Issue Price to the NTA per Share of the Group against Comparable Companies

8.4.5 Issue Price to the NTA per Share of the Group against Comparable Transactions

8.4.6 Book value or revalued value may not be fully realisable and may deteriorate further

Shareholders should take note that the NTA may not be fully realisable at its book value or revalued value, especially within a short time frame, and the NTA may deteriorate further if the Group continues to incur losses after the latest interim period of 30 June 2016.

8.5 Relative Valuation Analysis

In assessing the Whitewash Resolution, we have also considered the financial performance, financial position and valuation statistics of selected comparable companies (the "**Comparable Companies**") listed on the SGX-ST that may, in our view, be broadly comparable to the core business of the Group, which are the manufacturing of Printed Circuit Boards (PCB), and drilling and routing services to PCB manufacturers.

We advise the Independent Directors to note that there may not be any company listed on the SGX-ST that is directly comparable to the Group in terms of size, diversity of business activities and products/services, branding, geographical spread, track record, prospects, operating and financial leverage, risk profile, quality of earnings and accounting, listing status and such other relevant criteria. We wish to highlight that it may be difficult to place reliance on the comparison of valuation statistics for the Comparable Companies as the business of these selected companies, its capital structures, growth rates, operating and financial leverage, taxation and accounting policies as well as the liquidity of these shares and the demand/supply conditions for these shares and that of the Group may differ. In addition, we wish to highlight that the list of Comparable Companies is by no means exhaustive. As such, any comparison made herein is necessarily limited and serves only an illustrative guide. Any conclusion drawn from the comparison may not necessarily reflect the perceived or implied market valuation (as the case may be) of the Group as at the Latest Practicable Date.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Independent Directors should note that the prices at which shares trade include factors other than historical financial performance, and some of these, *inter-alia*, include prospects real or perceived of financial performance or historical Share Price performance or demand/supply conditions of the shares as well as the relative liquidity of the shares and the market capitalisation or the relative sentiments of the market for the shares.

Notes:

- The T12 Return On Equity ("ROE") was calculated based on the ratio of the T12 net profit after tax attributable to the shareholders to the shareholders' equity exclude minority interest as at 30 June 2016 of the respective companies.
- T12 net profit margin was calculated based on the ratio of T12 net profits after tax attributable to shareholders to the T12 revenue of the respective companies.
- T12 asset turnover was calculated based on the ratio of the T12 revenue to the total assets as at 30 June 2016 of the respective companies.
- PCI recorded no borrowings as at 30 June 2016 based on their latest unaudited financial statements.
- AIM recorded a T12 loss after tax attributable to shareholder of approximately S\$2.2 million based on unaudited financial statements for the 6-month ended 30 June 2016 and the audited full year financial statements in its annual report dated 31 December 2015.
- CPH recorded a T12 loss after tax attributable to shareholder of approximately S\$0.9 million based on the full year audited financial statements in its annual report dated 31 March 2016.
- The Group recorded a T12 loss after tax attributable to shareholders of approximately S\$23.0 million based on unaudited financial statements for the 6-month ended 30 June 2016 and the audited financial statements for FY2015. The Group's shareholders' equity as at 30 June 2016 was approximately negative S\$2.9 million.

We noted the following:

- The Group's T12 ROE was not meaningful due to both negative T12 net profit after tax attributable to shareholders and shareholders' equity. The Group's T12 net profit margin was negative, which was similar to AIM and CPH, but less favourable than the rest of the Comparable Companies. The Group's negative T12 net profit margin of approximately 55.0% was worse off than AIM (negative T12 net profit margin of approximately 2.2%) and CPH (negative T12 net profit margin of approximately 14.9%). The Group had been in the loss making position during the Period Under Review.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (ii) Save for CPH, the Group's T12 asset turnover ratio was lower and less favourable than the rest of the Comparable Companies
- (iii) The Group's ratio for total liabilities to shareholders' equity and total borrowings to shareholders' equity were negative due to negative shareholders' equity and less favourable than all the Comparable Companies.

The following table presents the comparable valuation statistics for the Comparable Companies and the Group and should be evaluated in the context of their relative financial performance.

Table 5: Valuation Statistics of the Comparable Companies and the Group

Notes:

1. T12 Price-Earning Ratio ("PER") was calculated based on the ratio of market capitalisation as at Latest Practicable Date to T12 net profits after tax attributable to shareholders of the respective companies.
2. The Enterprise Value ("EV") was calculated based on the sum of the companies' market capitalisation as at Latest Practicable Date, preferred equity, minority interests, short and long term debts less cash and cash equivalents. The T12 Earning before Interest, Tax, Depreciation and Amortisation ("EBITDA") is computed based on the trailing 12 months period ending on 30 June 2016 for which financial results have been published.
3. The Price to NTA ("P/NTA") was calculated based on the ratio of market capitalisation as at the Latest Practicable Date to the NTA attributable to shareholders of the respective companies.
4. AIM recorded a T12 loss after tax attributable to shareholder of approximately S\$2.2 million based on unaudited financial statements for the 6-month ended 30 June 2016 and the audited full year financial statements in its annual report dated 31 December 2015. AIM's T12 EV/EBITDA of approximately 48.7x is construed as an outlier and had been excluded from our analysis.
5. CPH recorded a T12 loss after tax attributable to shareholder of approximately S\$0.9 million and a negative T12 EBITDA of S\$0.6 million based on the full year audited financial statements in its annual report dated 31 March 2016.
6. Based on the Issue Price of S\$0.018 and 570,000,000 Shares in issue as at the Latest Practicable Date.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

7. *The Group recorded a T12 loss after tax attributable to shareholders of approximately S\$23.0 million and a negative T12 EBITDA of approximately S\$19.6 million based on unaudited financial statements for the 6-month ended 30 June 2016 and the audited financial statements for FY2015.*
8. *Both the Group's P/NTA and P/RNTA were negative due to negative NTA of S\$3.0 million and negative RNTA of S\$1.0 million as at 30 June 2016.*

We noted the following:

- (i) The Group is generally in a weaker financial standing as compared to the Comparable Companies in terms of profitability, market capitalisation and key valuation ratios, other than CPH which was loss making with a negative T12 EBITDA, and has a smaller market capitalisation than the Company as at the Latest Practicable Date.
- (ii) The Group had been loss-making over the Period Under Review and has negative T12 EBITDA. In comparison, Comparable Companies namely Elec & Eltek, PCI, CEI and Multi-Chem were profitable with T12 EBITDA. Both AIM and CPH were both in loss-making position, but AIM has a positive T12 EBITDA.
- (iii) The Group's T12 PER was negative and less favourable than the T12 PER of Elec & Eltek, PCI, CEI and Multi-Chem which were trading at between 7.2x and 15.5x.
- (iv) Save for CPH, the Group's negative T12 EV/EBITDA was less favourable than the T12 EV/EBITDA of the rest of the Comparable Companies which were trading at between 2.0x and 4.4x.
- (v) While the Comparable Companies were trading at an simple average of 0.8x P/NTA, the Group's P/NTA and P/RNTA as at 30 June 2016 were negative due to negative NTA of S\$3.0 million and negative RNTA of S\$1.0 million as at 30 June 2016. As such, the Issue Price of S\$0.018 is already at a premium to the negative NTA and RNTA as at 30 June 2016, and this is more favourable than most of the Comparable Companies which were trading at discount to NTA (save for CEI which was trading at 1.9x P/NTA).

8.6 Comparable Transaction Analysis

We have also compared the valuation statistics implied by the Issue Price with those of selected recently completed transactions undertaken by SGX-ST listed companies, announced since January 2013 and up to the Latest Practicable Date ("**Comparable Transactions**"). We have reviewed transactions which involved issuance of shares for cash wherein a whitewash resolution was sought from shareholders to provide, *inter alia*, a comparison of the premium/(discount) of the issue prices of the consideration shares over/to the last transacted prices for the shares of these companies prior to the date of the relevant announcements and the NTA (or the RNTA, if available) of the companies.

We wish to highlight that the circumstances for each of the transactions is unique and the companies involved in the respective transactions may not be directly comparable to the Company and the Group in terms of business activities, size of operations, market capitalisation, asset base, risk profile, track record, future prospects and other relevant criteria. As such, the analysis is necessarily limited. Furthermore, the list of precedent transactions is by no means exhaustive and information relating to the said companies was compiled from publicly available sources. Accordingly, any comparison between the Proposed Subscription and the precedent transactions serves as an illustrative guide only.

Notes:

- The NTA (or the RNTA, if applicable) of the respective companies above are based on their respective NTA/RNTA values as set out in their respective circular for their above mentioned transactions.
- Based on RNTA per Share of S\$0.0902.
- The discount to the last transacted price prior to announcement was based on 25 February 2014.
- Issue price was determined to be at a discount of 10% to VWAP of the price traded on the day company received subscription request. Issue price to NTA was based on a reference price of S\$0.02306 over the NTA of the group as at 31 December 2014.
- In presenting the High, Low, Median and Simple Average of Comparable Transactions, we have excluded Xpress Holdings Ltd in which its issue price to NTA is construed as an outlier.
- Both the Group's P/NTA and P/RNTA were negative due to negative NTA of S\$3.0 million and negative RNTA of S\$1.0 million as at 30 June 2016.
- Based on Enlarged Share Capital. Assuming only Tranche 1 New Shares and Tranche 1 Introducer Shares are issued, the Subscriber will own 80.13% of the enlarged share capital.

For illustrating purposes only, we noted that:

- the discount of 35.7% for the Group as implied by the Issue Price from the last transacted price for the Shares prior to the Subscription Announcement Date is within the range but higher (less favourable) than the median and simple average of the Comparable Transactions;

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (ii) for most of the Comparable Transactions, the issue price was at a premium to the NTA (or the RNTA, if applicable) per share of the respective companies. Due to the Group's negative NTA and RNTA per Share as at 30 June 2016, the Issue Price to NTA and RNTA multiples of the Group as at 30 June 2016 were negative. As such, the Issue Price of S\$0.018 was also at a premium to the negative NTA and RNTA per Share of the Group as at 30 June 2016.

8.7 Financial Effects of the Proposed Subscription

The proforma financial effects of the Proposed Subscription as at 31 December 2015 is set out in **Section 6** of the Circular. The Proposed Subscription will reduce the FY2015 loss per Share from 3.342 Singapore cents to 0.324 Singapore cents after taking into account the issuance of New Shares (assuming full conversion of the Bonds), Introducer Shares and Option Shares. It will also increase the NTA (which includes deferred tax assets) per Share of the Group as at 31 December 2015, from 0.438 Singapore cents to 1.668 Singapore cents after taking into account the issuance of New Shares (assuming full conversion of the Bonds), Introducer Shares and Option Shares. We have considered the financial effects of the Proposed Subscription in the full context with other factors.

8.8 Other Relevant Considerations

8.8.1 No Alternative Proposal

Based on the discussions with the Board of Directors and the Management, we understand that the Company has been open to consider other alternative proposals from third parties. However, as at the Latest Practicable Date and at the time of the consideration of the Subscription Agreement, the Board of Directors and the Management have confirmed to Stirling Coleman that they have not received any viable alternative proposals which they believe to be more attractive to the Shareholders. Stirling Coleman has not independently verified whether there have been any alternative viable proposals.

8.8.2 Significant Dilution to Existing Shareholders

On Completion, the shareholdings of the existing Shareholders of the Company will be diluted significantly to 9.69%, after taking into account the 88.54% to be held by the Subscriber and 1.77% to be held by the Introducer on an Enlarged Share Capital basis.

The potential dilution, as extracted from the Circular, is set out below.

Shareholders should note that the Proposed Subscription is conditional upon the approval of the other resolutions set out in the Notice of EGM, and hence the Proposed Subscription will not be completed in the event that any one of these resolutions is not approved.”

8.8.3 Orient Straits Fund III will be the Controlling Shareholder and single largest Shareholder on Completion

As of the Latest Practicable Date, Oriental Straits Fund III, the Subscriber does not hold any Shares in the Company. On Completion of the Proposed Subscription, the Subscriber's interest in the Company will increase from 0% to 88.54% of the Enlarged Share Capital assuming the issuance of the New Shares, Option Shares and Introducer Shares (including the Introducer Shares in respect of the Option Shares). As such, the Subscriber will be in a position to exercise statutory control of the Company. Statutory control will put the Subscriber in a position to be able to pass all ordinary resolutions on matters in which the Subscriber does not have an interest in and which are tabled for Shareholders' approval at general meetings to be convened by the Company.

8.8.4 No assurance of prospects, financial performance and position, market prices and trading liquidity. Subscriber will nominate individuals to the board of directors of the Company and senior management of the Group.

Although the Proposed Subscription will increase the share capital base and potentially the market capitalisation of the Company, we would like to highlight that there is no assurance that this will improve the prospects, financial performance and position, market prices and trading liquidity of the Company.

As set out in **Section 7.3** of the Circular, “*Concurrent with the Proposed Diversification, the Company will set up a new senior management team for the Media Business to oversee the Media Business ...*” There is no assurance that the future strategies, directions and steps which may be taken by the new board of directors of the Company and the senior management of the Group with individuals nominated by the Subscriber and the use of proceeds subsequent to the Proposed Subscription will improve the prospects and financial performance and position of the Group, and the market prices and trading liquidity for the Shares of the Company.

8.8.5 Moratorium undertakings

To demonstrate commitment to the Proposed Subscription and Proposed Diversification, the Subscriber has on 15 September 2016 provided a moratorium undertaking in favour of the Company, pursuant to which it has undertaken not to sell, transfer, charge, dispose, mortgage, pledge or otherwise deal with any Tranche 1 New Shares for a period of 6 months after the Tranche 1 Completion Date.

8.8.6 Irrevocable undertakings

We noted that the Undertaking Shareholder, Mr. Wen Yao-Long, the Executive Chairman and Chief Executive Officer of the Company, holds 149,509,747 Shares directly and indirectly through Sunny Worldwide Int'l Ltd., representing approximately 26.23% of the total issued Shares as at the Latest Practicable Date, had provided Irrevocable Undertakings to vote in favour of the Proposed Subscription in respect of the Shares held by him.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

In addition, the Undertaking Shareholder and the Company have undertaken that they shall (jointly and severally) fully indemnify the Subscriber against all liabilities which may be suffered or incurred by the Subscriber in connection with, *inter alia*, any breach of representations, warranties and undertakings by the Undertaking Shareholder and the Company contained in the Subscription Agreement.

8.8.7 The Proposed Subscription is conditional on the approval of the Proposed Whitewash Resolution

The Completion is, *inter alia*, conditional on the approval of all the resolutions, including the Proposed Whitewash Resolution set out in the Notice of EGM in the Circular. Accordingly, if the Proposed Whitewash Resolution is not passed by a majority of the Shareholders, the Proposed Subscription will not take place.

9. SUMMARY OF ANALYSIS

In arriving at our opinion in respect of the Proposed Whitewash Resolution, we have deliberated on various factors which we consider to be pertinent and have a significant bearing on our assessment including, *inter alia*, the following:

(a) Rationale of and use of proceeds for the Proposed Subscription

(i) Extension of watch-list status to 4 March 2017 and the Company is in a better position to remove itself from watch-list

The Company has been placed on the watch-list since 5 March 2014 and may be removed from the Official List or be suspended imminently on 5 March 2016 if it fails to meet the profitability and/or market capitalisation requirement under Rule 1314 of the SGX-ST Listing Manual. On 25 February 2016, the Company announced that it has submitted an application to the SGX-ST for an extension of the aforementioned 24-month period to apply for its removal from the watch-list. On 1 March 2016, the Company announced that it has procured an extension of time of up to 12 months to 4 March 2017 to meet the requirements for removal from the watch-list, subject to conditions as set out in the announcement dated 1 March 2016.

The Proposed Subscription will substantially increase the share capital base of the Company, placing the Company in a better position to meet the requirements under Rule 1314 of the SGX-ST Listing Manual and to remove itself from the watch-list.

(ii) An opportunity for diversification

The Proposed Subscription and the proceeds will provide the Group with the opportunity to diversify into a new business area and reduce the Group's reliance on its existing core PCB business which had been loss-making over the Period Under Review and facing challenging macroeconomic conditions. The Proposed Diversification into the Media Business may provide the Group with new revenue stream, improve the prospect and growth potential of the Group and may enhance Shareholders' value.

(b) Financial Analysis of the Group

(i) Weak Historical Financial Performance and Position

The Group experienced declining revenue between FY2013 and FY2015 as a result of weak global economy, and had been loss making over the Period Under Review despite its cost restructuring efforts. In addition, we wish to highlight the Group's negative NTA and negative working capital as at 30 June 2016, and its negative operating cash flow for 1H2016.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Furthermore, the auditors had highlighted in the “Emphasis of Matter” in the Company’s annual report for each of FY2013, FY2014 and FY2015, expressing their concerns over the net loss of the Group, the negative working capital of the Company and their doubt for the Group and the Company to operate as a going concern.

(c) Historical Share Price Performance and Trading Liquidity

(i) Issue Price was generally above the Share Price between 7 December 2014 (12 months before the Holding Announcement Date) and 30 November 2015

The Issue Price of S\$0.018 was generally above the closing Share Price between 7 December 2014 (12-months before the Holding Announcement Date) and till 30 November 2015, save for 6 Trading Days during this period.

(ii) Higher than usual Share Prices and Share Volume from 1 December 2015 to 22 January 2016

Between 1 December 2015 and 22 January 2016, the Shares had been trading at a premium to the Issue Price. The daily trading volume for the Shares had also increased substantially for the same period. We noted that the higher than usual Share Prices and Share volume started from 1 December 2015 and this was close to and within 2 weeks prior to the Holding Announcement on 6 December 2015 and the Subscription Announcement on 11 December 2015.

(iii) Issue Price generally above the Share Price from 23 January 2016 and up to the Latest Practicable Date

The Issue Price of S\$0.018 had generally been above the closing Share Price from 23 January 2016 to, and include, the Latest Practicable Date, save for 14 Trading Days during this period.

(iv) Issue Price comparison to VWAP

The Issue Price is at a discount of approximately 23.1%, 15.0% and 6.5% from the VWAP for the Shares for the period 1-month, 3-months, 6-months respectively prior to the Holding Announcement Date. The Issue Price is at a premium of approximately 7.2% from the VWAP for Shares for the period 12-months prior to the Holding Announcement Date. We have also considered that the discount was larger for the shorter period when comparing 1-month, 3-months, 6-months and 12-months VWAP for the Shares as a result of the higher than usual Share Prices and Share volume traded during the period between 1 December 2015, the Holding Announcement and the Subscription Announcement.

The Issue Price is at premium of 20.0% to the last transacted price on the Latest Practicable Date.

(v) Low trading volume

We noted that the trading volume of the Shares on the SGX-ST had generally been low in the past 12 months prior to the Holding Announcement Date and ending on the Latest Practicable Date. **However, Shareholders should note that the past trading performance for the Shares should not be relied upon as an indication of its future trading performance.**

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

(d) Issue Price comparison to Book Value

(i) Issue Price is at premium to NTA and RNTA per Share

The unaudited NTA of the Group as at 30 June 2016 was negative at approximately S\$3.0 million. As such, the Issue Price of S\$0.018 is at a premium to the negative NTA per Share of the Group as at 30 June 2016. The audited NTA of the Group as at 31 December 2015 was approximately S\$2.5 million. The Issue Price represents a premium to the NTA per Share of 0.433 Singapore cents as at 31 December 2015 and the P/NTA works out to be 4.2x.

In addition, the RNTA of the Group as at 30 June 2016 was negative at approximately S\$1.0 million after the adjustments for the revaluation amount of lands and buildings. The Issue Price of S\$0.018 is at a premium to the negative RNTA per Share of the Group as at 30 June 2016. The RNTA of the Group as at 31 December 2015 was approximately S\$4.4 million. The Issue Price represents a premium to the RNTA per Share of 0.772 Singapore cents as at 31 December 2015 and the P/RNTA works out to be 2.3x.

(ii) Share Price had generally been trading below the NTA per Share in the past 12 months prior to the Holding Announcement Date

We noted that the Share Price of the Company had generally been trading below its NTA per Share and at a discount of ranging from 22.2% to 75.6% between 7 December 2014 (12-months before the Holding Announcement) and 6 December 2015, save for the closing Share Price on 4 December 2015 which was equivalent to the NTA per Share of S\$0.027 as at 30 September 2015; and the closing Share Price on 30 July 2015 which was equivalent to the NTA per Share of S\$0.033 as at 30 June 2015.

(iii) Share Price had generally been trading above NTA per Share after the Holding Announcement Date and up to the Latest Practicable Date

From 7 December 2015 up to the Latest Practicable Date, the Company's Shares were trading at a premium to the NTA per Share, save for 22 December 2015 when the closing Share Price was equivalent NTA per Share of S\$0.027 as at 30 September 2015.

(iv) Comparable Companies are trading at below NTA per Share as at the Latest Practicable Date

We further noted that almost all of the Comparable Companies (save for CEI which was trading at 1.9x P/NTA) had been trading at a discount to its NTA per Share between 0.3x and 0.8x as at the Latest Practicable Date. Please see the section on "Relative Valuation Analysis" for details.

(v) Book value or revalued value may not be fully realisable and may deteriorate further

Shareholders should take note that the NTA may not be fully realisable at its book value or revalued value, especially within a short time frame, and the NTA may deteriorate further if the Group continues to incur losses after the latest interim period of 30 June 2016.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

(e) Relative Valuation Analysis

(i) Comparable Companies are trading at below NTA per Share as at the Latest Practicable Date

The Group is generally in a weaker financial standing as compared to the Comparable Companies in terms of profitability, market capitalisation and key valuation ratios (save for CPH which was loss making with a negative T12 EBITDA, and has smaller market capitalisation than the Company as at the Latest Practicable Date).

While the Comparable Companies were trading at an simple average of 0.8x P/NTA, the Group's P/NTA and P/RNTA as at 30 June 2016 were negative due to negative NTA of S\$3.0 million and negative RNTA of S\$1.0 million as at 30 June 2016. As such, the Issue Price of S\$0.018 is already at a premium to the negative NTA and RNTA as at 30 June 2016, and this is more favourable than most of the Comparable Companies which were trading at discount to NTA (save for CEI which was trading at 1.9x P/NTA).

(f) Comparable Transactions Analysis

(i) Within range of Comparable Transactions but less favourable in terms of median and average

The Issue Price of S\$0.018 is at 35.7% discount to the last transacted price for the Shares prior to the Subscription Announcement Date. This discount is within the range but higher (less favourable) than the median and simple average of the Comparable Transactions.

We noted that for most of the Comparable Transactions, the issue price was at a premium to the NTA (or the RNTA, if applicable) per share of the respective companies. Due to the Group's negative NTA and RNTA per Share as at 30 June 2016, the Issue Price to NTA and RNTA multiples of the Group as at 30 June 2016 were negative. As such, the Issue Price of S\$0.018 was also at a premium to the negative NTA and RNTA per Share of the Group as at 30 June 2016.

(g) Financial Effects of the Proposed Subscription

The Proposed Subscription will reduce the FY2015 loss per Share from 3.342 Singapore cents to 0.324 Singapore cents after taking into account the issuance of New Shares (assuming full conversion of the Bonds), Introducer Shares and Option Shares. It will also increase the NTA (include deferred tax assets) per Share of the Group as at 31 December 2015, from 0.438 Singapore cents to 1.668 Singapore cents after taking into account the issuance of New Shares (assuming full conversion of the Bonds), Introducer Shares and Option Shares. We have considered the financial effects of the Proposed Subscription in the full context with other factors.

(h) Other Relevant Considerations

We have also considered other relevant factors, details of which are set out in section 8.8 of this Letter.

APPENDIX A: LETTER FROM THE INDEPENDENT FINANCIAL ADVISER
